

# PROJECT PROFILE: SPRINGVALE SANITATION PROJECT

## SISONKE DISTRICT MUNICIPALITY

### SPRINGVALE SANITATION PROJECT

PROJECT NAME	: Springvale Sanitation Project
COMMENCEMENT DATE	: October 2002
COMPLETION DATE	: December 2006
DURATION	: 9 months

#### **BACKGROUND:**

The project was prioritized for the purpose of breaking the cycle of diseases related to water and sanitation. The community was identified as high risk for cholera by the Department of Environmental Health. The project is planned to build 1186 toilet structures for the population of about 7116.

#### **PROJECT LOCATION**

The project is located approximately 20km south of Richmond within the Sisonke District Municipality. The project comprises of the following sub-villages Ntabane, KoShange, KoZondi, Mahlabathini and Springvale Mision. The central decimal co-ordinates are as follows: 30.31 degrees East and 30.10 degrees South.

#### **PROJECT OBJECTIVES:**

To reduce the risk of diseases related to water and sanitation by providing toilets and creating a greater awareness on issues of hygiene with the community members.

## **SCOPE OF WORKS**

Demonstration toilets were 1 Block toilet structure, 1 Archloo toilet structure and 1 corrugated iron toilet structure. The community opted for the corrugated structures because it was the one within the subsidy budget.

## **STAKEHOLDERS**

The project will be implemented by the Sisonke District Municipality and will implement the project using Municipal Infrastructure Grant funds.

The Project Team consists of:

Project Steering Committee	: Established at start of project.
Implementing Agent	: Mvula Trust
Contractor	: Community Builders

## **BUDGET**

The budget approved project budget for the project is R 2 515 641.69.
