GENERAL NOTICES • ALGEMENE KENNISGEWINGS**GENERAL NOTICE 115 OF 2024****UMSHWATHI LOCAL MUNICIPALITY****MUNICIPAL NOTICE IN TERMS OF THE MUNICIPAL PROPERTY RATES ACT 6 OF 2004****CALLING FOR THE INSPECTION OF THE SUPPLEMENTARY VALUATION ROLL 3 AND LODGING OF OBJECTIONS**

Notice is hereby given in terms of Section 49 (1) (a) (i) read together with Section 78 (1) and (2) of the Local Government: Municipal Property Rates Act, 2004 (Act No. 6 of 2004), hereinafter referred to as the "Act", that the uMshwathi Local Municipality's Supplementary Valuation Roll for the period ending 30 June 2025 for the financial year 2024/2025 will be open for public inspection at designated municipal venues from **31 July 2024 until 10 September 2024** during office hours.

Designated Municipal Venues:

Main Office New Hanover
Dalton, New Hanover and Wartburg Libraries
Cool Air, New Hanover and Wartburg Cashier Offices
Website: www.umshwathi.gov.za

An invitation is hereby made in terms of section 49(1) (a) (ii) read together with section 78 (2) of the Act that any owner of the property or other person who so desires should lodge an objection with the Municipality Manager in respect of any matter reflected in, or omitted from, the Supplementary Valuation Roll within the above-mentioned period. Attention is specifically drawn to the fact that, in terms of section 50 (2) of the Act an objection must be in relation to a specific individual property and not against the supplementary valuation rolls as such. The prescribed form for the lodging of an objection is obtainable from designated municipal venues as listed above. The completed forms must be returned to the Municipal Manager on or before the **10 September 2024** at the following address:

41. Measurement of quantity and determination of quality of industrial effluent discharged

Part 4: Drainage installations

42. Technical requirements for drainage installations
43. Installation of drainage installations
44. Approval of drainage installation work
45. Persons permitted to do drainage installation and other work
46. Use of approved pipes and sanitation fittings
47. Testing of drainage installation
48. Disconnection of drainage installations
49. Maintenance of drainage installations
50. Drainage installation and sewer blockages
51. Grease traps
52. Mechanical appliances for lifting sewage

Part 5: On-site sanitation services and associated services

53. Installation of on-site sanitation services
54. Ventilated improved pit latrines
55. Septic tanks and treatment plants
56. French drains
57. Conservancy tanks
58. Operation and maintenance of on-site sanitation services
59. Disused conservancy and septic tanks

Part 6: Industrial effluent

60. Approval to discharge industrial effluent
61. Withdrawal of approval to discharge industrial effluent
62. Quality standards for disposal of industrial effluent
63. Conditions for the discharge of industrial effluent

Part 7: Sewage delivered by road haulage

64. Acceptance of sewage delivered by road haulage
65. Approval for delivery of sewage by road haulage
66. Withdrawal of permission for delivery of sewage by road haulage
67. Conditions for delivery of sewage by road haulage

Part 8: Other sanitation services

68. Stables and similar premises
69. Mechanical food-waste or other disposal units

CHAPTER 6
UNAUTHORISED WATER SERVICES

- 70. Unauthorised services
- 71. Interference with infrastructure for the provision of water services
- 72. Obstruction of access to infrastructure for the provision of water services
- 73. Waste of water
- 74. Unauthorised and unlawful discharges
- 75. Unauthorised and unlawful re-connections
- 76. Interference with infrastructure
- 77. Pipes in streets or public places
- 78. Use of water from sources other than the water supply system

CHAPTER 7
EMERGENCY SITUATIONS

- 79. Declaration of emergency situations

CHAPTER 8
NOTICES

- 80. Power to serve and compliance with notices

CHAPTER 9
APPEALS

- 81. Appeals against decisions of the Municipality

CHAPTER 10
OFFENCES

- 82. Offences

GENERAL PROVISIONS

- 83. Customer care
- 84. Provision of information
- 85. Power of entry and inspection
- 86. Indemnification from liability
- 87. Exemption

- 88. Conflict of law
- 89. Repeal of existing municipal water services by-laws
- 90. Transitional arrangements
- 91. Short title and commencement

SCHEDULE A: LIMITS OF CONCENTRATION OF SUBSTANCES THAT MAY BE DISCHARGED TO THE MUNICIPALITY'S SANITATION SYSTEM

SCHEDULE B: APPLICATION FORM FOR THE DISCHARGE OF INDUSTRIAL EFFLUENT TO THE MUNICIPALITY'S SANITATION SYSTEM

SCHEDULE C: FORMULA FOR THE CALCULATION OF EFFLUENT DISCHARGE CHARGES

CHAPTER 1: GENERAL PROVISIONS

1. DEFINITIONS

For the purpose of these by-laws, any word or expressions to which a meaning has been assigned in the Water Services Act 108 of 1997, the Local Government: Municipal Systems Act 32 of 2000 or the National Building Regulations made in terms of the National Building Regulations and Building Standards Act, 1977 shall bear the same meaning in these by-laws and unless the context indicates otherwise and a word in any one gender shall be read as referring also, to the other two genders

—
“Accommodation unit” - in relation to any premises means a building or section of a building occupied or used or intended for occupation or use for any purpose.

"account" means a notification by means of a statement of account to a person liable for payment of any amount for which he or she is liable to pay the municipality in respect of water services provided.

"agreement" means a contractual relationship between the municipality and a customer that arises, either as a result of the municipality's approval of a written application for municipal services made in terms of the municipality's by-laws relating to credit control and debt collection.

"approved" means approved by the municipality in writing.

“Area of supply” means any area within or partly within the area of jurisdiction of the municipality to which a water service is provided.

"Authorised official or agent" means: -

- (a) any person who has been authorised by the municipality to administer, implement, perform any function, or enforce the provisions of these by-laws.
- (b) Any person to whom the municipality has delegated the performance of certain rights, duties, and obligations in obligations in respect of providing water supply services; or
- (c) Any person appointed by the municipality in a written contract as a service provider for the provision of water supply services to customers on itself, to the extent authorized in such contract.

"Basic sanitation" means the minimum standard of safe and hygienic sanitation services and sewage disposal rendered to households, prescribed in terms of the Water Services Act, 108 of 1997, under regulation 2 of Government Notice R509 of 8 June 2001, as amended from time to time, or any substitution for that regulation.

"Basic water supply" means the minimum standard of water supply services necessary for the reliable supply of water to households to support life and person at hygiene, prescribed in terms of the Water Services Act, 108 of 1997 under regulation 3 of Government Notice R509 of 8 June 2001, as amended from time to time, or any substitution for that regulation.

"Backflow" means the flow of water in any pipe or fitting in a direction opposite to the normal direction of flow.

"Backflow preventer" means any device or means to prevent backflow.

"Back Siphonage" means backflow resulting from pressures lower than the atmospheric pressure in the water installation.

"Basic sanitation", means the minimum standard of safe and hygienic sanitation services and sewerage disposal rendered to households, and prescribed in terms of the Act, under regulation 2 of Government Notice R509 of 8 June 2001, as amended from time to time or any substitution for that regulation.

"Basic water supply" means the minimum standard of water supply services necessary for the reliable supply of water to households to support life and personal hygiene, prescribed in terms of the Act and under regulation 3 of Government Notice R509 of 8 June 2001, as amended from time to time or any substitute for that regulation.

"Best Practicable Environmental Option"- means the option that provides the most benefit or causes the least damage to the environment as a whole, at the cost acceptable so society, in the long term as well as in the short term.

"Borehole" means a hole sunk into the earth for the purpose of locating, abstracting or using subterranean water and includes a spring.

"Building Regulations" means the National Building Regulations made in terms of the National Building Regulations and Building Standards, 1977.

"charge" means the rate, charge, tariff, flat rate or subsidy prescribed by the municipal council.

"Combined water and fire-fighting installation" means a water installation used for fire-fighting and domestic, commercial or industrial purposes.

"Commercial customer" means any customer other than domestic customer, including, but not limited to, a business, industrial, governmental or institutional customers.

"Communal water connection" means a connection through which water services are supplied to more than one customer, and "communal water services work" has a corresponding meaning.

"Connecting sewer" means a pipe owned by the municipality and installed by it for the purpose of conveying sewage from a drainage Installation on a premises to a sewer beyond the boundary of those premises or within a servitude area or within an area covered by a wayleave or by agreement.

"connection" means the point at which a customer gains access to water services.

"Water connection pipe" means a pipe, owned by the municipality and installed by it for the purpose of conveying water from a main to the customer's water installation, and includes a "water communication pipe" referred to In SANS 0252 Part I.

"Sewage conservancy tank" means a covered tank used for the reception and temporary retention of sewage and which requires emptying at intervals.

"customer" means a person with whom the municipality has concluded an agreement, or is deemed to have concluded, an agreement for the provision a municipal service as provided for in the municipality's by-laws relating to credit control and debt collection and includes a consumer as defined In the Water Services Act, 108 of 1997

"determined" means determined by the municipality.

"Domestic customer" means a customer who, primarily for residential purposes, occupies a dwelling, structure or premises.

"Domestic purposes" in relation to the supply of services means services supplied to premises used predominantly for residential purposes.

"drainage installation" means a system situated on any premises and vested in the owner thereof and which is used for or intended to be used for or in connection with the reception, storage, treatment or conveyance of sewage on that premises to the connecting sewer and includes drains, fittings, appliances, septic tanks, conservancy tanks, pit latrines and private pumping installations forming part of or ancillary to such systems;

"estimated consumption" means the consumption that a customer, whose consumption is not measured or accurately measured during a specific period is deemed to have consumed during a specific period, based on an estimate by the municipality on rational grounds such as the average consumption of municipal services by the users of a service within the area where the service is rendered or the average consumption of municipal services by the customer during a prior or later period;

"Fire installation" means a potable water installation that conveys water for fire-fighting purposes only.

"French drain" means a soil soak pit for the disposal of sewage and effluent from a septic tank.

"household" means a family unit, as determined by the municipality as constituting a household by taking into account the number of persons comprising a household, the relationship between the members of a household, the age of the persons who are members of it and any other factor that the municipality considers to be relevant.

"Industrial effluent" means effluent emanating from the use of water for industrial purposes and includes for purposes of these by-laws any effluent other than standard domestic effluent or storm water.

"infrastructure" means the facilities, installations or devices required for the rendering of a municipal service, or for the functioning of a community including, but not limited to, facilities, installation or devices relating to water, power, electricity, transport, sewerage, gas and waste disposal.

"Water installation work" means any work done in respect of a water installation, including construction, rehabilitation, improvement and maintenance.

"interest" means interests as may be prescribed by the Minister of Justice in terms of section 1 of the Prescribed Rate of Interest Act 55 of 1975.

"manhole" means any access chamber to the Interior of the sewer provided for the purpose of maintenance and internal cleaning.

"main" means a pipe, other than a connection pipe, of which the ownership vests in the municipality and which is used by it for the purpose of conveying water to customers.

"Water meter" means any meter, method, procedure, process, device, apparatus or installation that enables the quantity of water services provided to be quantified and includes any method, procedure or process whereby the quantity is estimated or assumed.

"municipality" means—

- (a) The Harry Gwala District Municipality established in terms of section 12 of the Structures Act and its successors-in title; or
- (b) the municipal manager of HGDM, or
- (c) an authorised official or agent of the municipality acting in terms of the relevant municipality's delegations framework.

"Municipal council" means a municipal council for HGDM as referred to in section 157(1) of the Constitution of the Republic of South Africa, 1996.

"Municipal services" means, for purposes of these by-laws, services provided by a municipality, including refuse removal, water supply, sanitation, electricity services and rates.

"occupier" Includes any person who occupies any, or any part of any, land, building, structure or premises without regard to the title under which he or she occupies it or them, and includes any person who, for someone else's remuneration or reward, allows a lodger or tenant, or any other similar person, to use or occupy any, or any part of any, land, building, structure or premises;

"on-site sanitation services" means any sanitation services other than water borne sewerage disposal through a sewerage disposal system.

"owner" means—

- (a) the person is whose name the ownership of the premises is registered from time to time or his agent.
- (b) where the registered owner of the premises is insolvent or deceased, or for any reason lacks legal capacity, or is under any form of legal disability, that has the effect of preventing him from being able to perform a legal act on his own behalf, the person in whom the administration and control of such premises is vested as curator, trustee, executor, administrator, judicial manager, liquidator or other legal representative;
- (c) where the municipality is unable to determine the identity of the owner, a person who has a legal right in, or the benefit of the use of, any premises, building, or any part of a building, situated on them.
- (d) where a lease has been entered into for a period of 30 (thirty) years or longer, or for the natural life of the lessee or any other person mentioned in the lease, or is renewable from time to time at the will of the lessee indefinitely or for a period or periods which, together with the first period of the lease, amounts to 30 years, the lessee or any other person to whom he has ceded his right title and interest under the lease, or any gratuitous successor to the lessee;
- (e) in relation to—
 - (i) a piece of land delineated on a sectional plan registered in terms of the Sectional Titles Act, 95 of 1986, the developer or the body corporate in respect of the common property, or
 - (ii) a section as defined in the Sectional Titles Act, the person in whose name such section is registered under a sectional title deed and includes the lawfully appointed agent of such a person; or
 - (iii) a person occupying land under a register held by a tribal authority or in accordance with a sworn affidavit made by a tribal authority.

"person" means any person, whether natural or juristic.

"plumber" means a person who has passed a qualifying Trade Test in Plumbing or has been Issued with a certificate of proficiency in terms of the Manpower Training Act 56 of 1981 or such other qualification as may be required under national, provincial or local legislation.

"pollution" means the introduction of any substance into the water supply system, a water installation or a water resource that may make the water harmful to health or environment or impair its quality for the use for which it is normally intended.

"pre-payment meter" is a measuring device that Includes a mechanism that limits the volume of water supplied through the measuring device to a free basic amount per month and an amount in excess of the free basic amount in proportion to the amount pre-paid by the customer.

"premises" means any piece of land, the external surface boundaries of which are delineated on—

- (a) a general plan or diagram registered in terms of the Land Survey Act 8 of 1997 or in terms of the Deeds Registries Act 47 of 1937
- (b) a sectional plan registered in terms of the Sectional Titles Act 95 of 1986;
or
- (c) a register held by a tribal authority or in accordance with a sworn affidavit made by a tribal authority.

'prescribed' means adopted by the Municipal Council by means of a Council resolution.

"Professional engineer" means a person registered in terms of the Engineering Profession Act, 2000 as a professional engineer.

"Public notice" means publication in the media including one or more of the following:

- (a) publication of a notice, In the official languages determined by the municipal council:
 - (i) in any local newspaper or newspapers circulating in the area of supply of the municipality.

- (ii) in the newspaper or newspapers circulating in the area of supply of the municipality determined by the municipal council as a newspaper of record; or
 - (iii) on the official website of the municipality.
 - (iv) by means of radio broadcasts covering the area of supply of the municipality.
- (b) displaying a notice in or at any premises, office, library, or pay-point of either the municipality, or of its authorised agent, to which the public has reasonable access; and
- (c) communication with customers through public meetings and ward committee meetings.

"SANS" means the South African National Standard.

"Sanitation services" has the same meaning assigned to it in terms of the Act and includes for purposes of these by-laws the disposal of industrial effluent.

"Sanitation system" means the structures, pipes, valves, pumps, meters or other appurtenances used in the conveyance through the sewer reticulation system and treatment at the sewage treatment plant under the control of the municipality and which may be used by it in connection with the disposal of sewage.

"Septic tank" means a watertight tank designed to receive sewage and to affect the adequate decomposition of organic matter in sewage by bacterial action.

"sewage" means wastewater, industrial effluent, standard domestic effluent and other liquid waste, either separately or in combination, but shall not include storm water.

"sewer" means any pipe or conduit which is the property of or is vested in the municipality and which may be used for the conveyance of sewage from the connecting sewer and shall not include a drain as defined.

"standpipe" means a tap and associated fittings that is free standing and is located outside of any structure.

"Standard domestic effluent" means domestic effluent with the characteristics normally associated with sewage discharges from domestic premises within the jurisdiction of the municipality but shall not include industrial effluent.

"stormwater" means water resulting from natural precipitation or accumulation and includes rainwater, subsoil water or spring water.

"tap" means water fitting at an outlet of a water installation that controls the discharge of water from a water installation.

"Trade premises" means premises upon which industrial effluent is produced.

"trap" means a pipe fitting or portion of a sanitary appliance designed to retain water seal which serves as a barrier against the flow of foul air or gas, in position.

"Unauthorised connection" means; but is not limited to.

- a) A connection which has not been approved.
- b) A connection which was made by an unauthorised person.
- c) A connection which has been made with unapproved fittings.
- d) A connection which is providing services for an unapproved use.

"Unauthorised service" means the receipt, use or consumption of any municipal service which is not in terms of an agreement with, authorised or approved by the municipality.

"water installation" means the pipes and water fittings which are situated on any premises and ownership thereof vests in the owner thereof and is used or intended to be used in connection with the use of water on such premises, and includes a pipe and water fitting situated outside the boundary of the premises, which either connects to the connection pipe relating to such premises or is otherwise laid with the permission of the municipality;

"Water services" means water supply services and sanitation services.

"Water supply services" has the same meaning assigned to It In terms of the Water Services Act and includes for purposes of these by-laws water for industrial purposes and fire extinguishing services.

"Water supply system" means the structures, aqueducts, pipes, valves, pumps, meters or other apparatus relating thereto of which the ownership vests in the municipality and which are used or intended to be used by it in connection with the supply of water, and includes any part of the system; and

"Working day" means a day other than a Saturday, Sunday, or public holiday.

CHAPTER 2: APPLICATION FOR WATER SERVICES

2. Application for water services

1. Water services rendered to a customer by the municipality are subject to the municipal by-laws relating to credit control and debt collection.
2. No person shall be provided with access to water services unless application has been made to, and approved by, the Municipality on the form prescribed in terms of the municipality's by-laws relating to credit control and debt collection.
3. The Municipality must on application for the provision of water services by a consumer inform that consumer of the different levels of services available and the prescribed fee or charges associated with each level of services.
4. A consumer must elect the available level of services to be provided.
5. A consumer may at any time apply to alter the level of services elected in terms of the agreement entered into, provided that such services are available and that any costs and expenditure associated with altering the level of services will be payable by the consumer.
6. An application agreed to by the Municipality shall constitute an agreement between the Municipality and the applicant, and such agreement shall take

effect on the date referred to or stipulated in such agreement.

7. A consumer shall be liable for all the prescribed fees or charges in respect of water services rendered to him or her until the agreement has been terminated in accordance with these By-laws or until such time as any arrears have been paid.
8. In preparing an application form for water services the Municipality will endeavour to ensure that the document and the process of interaction with the owner, consumer or any other person making application are understood by that owner, consumer or other person. In the case of illiterate or similarly disadvantaged persons, the Municipality will take reasonable steps to ensure that the person is aware of and understands the contents of the application form.

CHAPTER 3: SERVICE LEVELS

3. Service Levels

- (1) The municipality may, from time to time, and in accordance with national policy, but subject to principles of sustainability and affordability, by public notice, determine the service levels it is able to provide to customers.
- (2) The municipality may in determining service levels differentiate between types of customers, domestic customers, geographical areas, and socio-economic areas.
- (3) The following levels of service may, subject to subsection (1), be provided by the municipality on the promulgation of these by-laws:

3.1. SERVICE LEVEL 1

This level applies to Urban areas with high level of services, where, a metered pressured water connection with an individual connection to the municipality's sanitation system—

- (i) installed against payment of the relevant connection charges.
- (ii) provided against payment of prescribed charges; and
- (iii) with the water and drainage installations maintained by the customer.

3.2. SERVICE LEVEL 2

This level applies to small development nodes with basic level of services to high level of services where,

- (a) Yard connection not connected to any water installation and an individual connection to the municipality's sanitation system—
 - (i) consisting of a metered standpipe on a premises not connected to any water installation and a pour-flush toilet pan, wash-trough and suitable toilet top structure connected to the municipality's sanitation system,
 - (ii) installed against payment of the relevant connection charges.
 - (iii) provided against payment of prescribed charges; and
 - (iv) with the water and drainage installations maintained by the customer.

3.3. SERVICE LEVEL 3

This level of service applies to areas with basic level of services or backlogs or experiencing chronic water shortage due to poor water sources where,

- (a) Communal water supply services and on-site sanitation services—
 - (i) constituting the minimum level of service provided by the municipality.
 - (ii) consisting of reticulated standpipes or stationery water tank serviced either through a network pipe or a water tanker located within a reasonable walking distance from any household with a Ventilated Improved Pit latrine located on each premises with premises meaning the lowest order of visibly demarcated area on which some sort of informal dwelling has been erected.
 - (iii) installed free of charge.

CHAPTER 4: CONDITIONS FOR WATER SUPPLY SERVICES

Part 1: Connection to Water Supply System

4. Provision of Water Supply Connection Pipe

- (1) If an agreement for water supply services in respect of premises has been concluded in accordance with the municipality's by-laws relating to credit control and debt collection and no connection pipe exists in respect of the premises, the owner shall make application on the approved form and pay the prescribed charge for the Installation of such a pipe.

- (2) If an application is made for water supply services, in accordance with the municipality's by-laws relating to credit control and debt collection, which are of such an extent or so situated that it is necessary to extend, modify or upgrade the water supply system in order to supply water to the premises, the municipality may agree to the extension provided that the owner shall pay for the cost of the extension, as determined by the municipality.
- (3) Only the municipality may install a connection pipe, but the owner may connect the water installation to the connection pipe.
- (4) No person may commence any development on any premises zoned for a level of service other than a communal level of service unless the municipality has installed a connection pipe and water meter.

5. Location of Water Connection Pipe

- (1) A water connection pipe provided and installed by the municipality shall—
 - (a) be located in a position determined by the municipality and be of a suitable size as determined by the municipality.
 - (b) terminate at—
 - (i) the boundary of the land owned by or vested in the municipality, or over which it has a servitude or other right; or
 - (ii) at the outlet of the water meter or isolating valve if it is situated on the premises.
- (2) The municipality may on application agree, subject to such conditions as the municipality may impose, to a connection to a main other than that which is most readily available for the provision of water supply to the premises; provided that the applicant shall be responsible for any extension of the water installation to the connecting point designated by the municipality and for obtaining at his cost, any servitudes over other premises that may be necessary,
- (3) The prescribed connection charge must be paid before a connection is made to the connection pipe.

6. Provision of Single Water Connection for Supply to Several Customers on the Same Premises

- 6.1. Only one connection pipe to the water supply system may be provided for the supply of water to any premises, irrespective of the number of accommodation units, business units or customers located on such premises.
- 6.2. Where the owner, or the person having the charge or management of any premises on which several accommodation units are situated, requires the supply of water to such premises for the purpose of supply to the different accommodation units, the municipality may, in its discretion, provide and install either—
- (a) a single measuring device in respect of the premises as a whole or any number of such accommodation units;
 - or
 - (b) a separate measuring device for each accommodation unit or any number thereof.
- 6.3. Where the engineer has installed a single measuring device as contemplated in subsection (2) (a), the owner or the person having the charge or management of the premises, as the case may be—
- (a) must install and maintain on each branch pipe extending from the connection pipe to the different accommodation units—
 - i. a separate measuring device; and
 - ii. an isolating valve; and
 - iii. will be liable to the municipality for the charges for all water supplied to the premises through such a single measuring device, irrespective of the different quantities consumed by the different customers served by such measuring device.
- 6.4. Where premises are supplied by a number of connection pipes, the engineer may require the owner to reduce the number of connection points and alter his water installation accordingly.

7. Interconnection between premises or water installations

7.1. An owner of premises must ensure that no interconnection exists between –

- a) the water installation on his or her premises and the water installation on any other premises; or
- b) where several dwelling or business units are situated on the same premises, the water installations of such units,

Unless he or she has obtained the prior written consent of the municipality and complies with any conditions that may have been imposed.

8. Disconnection of Water Installation from the Connection Pipe

- 8.1. The municipality may disconnect a water installation from the connection pipe and remove the connection pipe on termination of an agreement for the provision of water supply services in accordance with the municipality's by-laws relating to credit control and debt collection.
- 8.2. The municipality may at the written request of the consumer disconnect the supply of water to the consumer's premises on a date specified by the consumer and reconnection may only take place they if:
 - (a) the consumer has requested reconnection from a specified date, in writing.
 - (b) Has, prior to the restoration of the water supply, paid the actual cost plus 10% for the cutting off of the supply of water, and for its restoration.
- 8.3. The municipality may on its own accord disconnect a water installation from the connection pipe and remove the connection pipe if the building on the premises concerned has been demolished.

9. WATER SUPPLIED FROM A HYDRANT

- 9.1. The Council may authorise a temporary supply of water to be taken from one or more fire hydrants specified by it, subject to such conditions and for such period

as may be generally prescribed or specifically imposed by it in respect of such supply.

- 9.2. Except in an emergency, a person who requires a temporary supply of water referred to in subsection (1) must apply therefor.
- 9.3. The municipality may, for the purpose of supplying water from a hydrant, provide a portable water meter to be returned to the municipality on termination of the temporary supply, which portable meter and all other fittings and apparatus used for the connection of the portable water meter to a hydrant remains the property of the municipality and will be provided subject to any conditions imposed by the municipality.

Part 2: Standards

10. Quantity, Quality and Pressure

Water supply services provided by the municipality must comply with the Compulsory National Standards and Measures to Conserve Water Published under GN R509 In GG 22355 of 8 June 2001.

11. Testing of Pressure in Water Supply Systems

The municipality may, on application by an owner and on payment of the prescribed charge, record and furnish the owner with the minimum and maximum pressure recorded in the water supply system relating to his premises over such period as the owner may request.

12. Pollution of Water

1. An owner shall provide and maintain effective measures to prevent the entry of any substance or matter, which may be a danger to health or adversely affect the portability of water or affect its fitness for use, in—

- (a) the water supply system or plant; and
 - (b) any part of the water installation on his or her premises.
2. No person shall, in respect of any stream, reservoir, or other place which forms part of the water supply services works:-
- a) Bathe or wash, dispose of or cause or permit to enter therein any animal.
 - b) Throw any rubbish, dirt, filthy or other deleterious matter therein, or wash or cleanse therein any cloth, wool, leather or skin of any animal, clothes or other matter, or
 - c) Cause or permit the water of any sink, sewer, drain, boiler or any other unclean water or liquid for the control of which they are responsible, to run or be brought therein, or do any other act, with the result that water intended for consumers may be polluted.
 - d) Connect to or disconnect the water supply infrastructure, without the permission of the Municipality, causing possible entry of foreign matter into the system, which may result in the pollution of water intended for human consumption.

13. Water Restrictions

- (1) The municipality may for purposes of water conservation or where, in its opinion, drought conditions are imminent or existing, by public notice—
- (a) prohibit or restrict the consumption of water in the whole or part of its area of jurisdiction—
 - (i) in general, or for specified purposes.
 - (ii) during specified hours of the day or on specified days; and
 - (iii) In a specified manner; and
 - (b) determine and impose—
 - (i) a restriction on the quantity of water that may be consumed over a specified period.

- (ii) charges additional to those prescribed in respect of the supply of water in excess of the restricted quantity; and
 - (iii) a general surcharge on the prescribed charges in respect of the supply of water; and
 - (c) impose restrictions or prohibitions on the use or manner of use or disposition of an appliance by means of which water is used or consumed, or on the connection of such appliances to the water Installation.
- (2) The municipality may restrict the application of the provisions of a notice contemplated by sub-section (1) to specified areas and categories of customers or users of premises, and activities, and may permit deviations and exemptions from, and the relaxation of, any of its provisions where there is reason to do so.
- (3) The municipality—
- (a) may take, or by written notice require a customer at his own expense to take, such measures, including the Installation of water saving devices, as may in its opinion be necessary to ensure compliance with a notice published in terms of sub-section (1); or
 - (b) may, subject to notice, and for such period as it may consider fit, restrict the supply of water to any premises in the event of a contravention of these by-laws that takes place on or in such premises or a failure to comply with the terms of a notice published in terms of sub-section (1); and
 - (c) shall where the supply has been discontinued, restore it only when the prescribed charge for discontinuation and reconnecting the supply has been paid.

14. Specific Conditions of Supply

- (1) The granting of a supply of water by the municipality shall not constitute an undertaking by it to maintain at any time or any point in its water supply system—
- (a) an uninterrupted supply, subject to the provisions of regulations 4 and 14 of Regulation 22355 promulgated in terms of the Act on 8 June 2003; or

- (b) a specific pressure or rate of flow in such supply other than requires in terms of regulation 15(2) of Regulation 22355 promulgated in terms of the Act on 8 June 2003,
- (2) The municipality may, subject to the provisions of sub-section (1) (b), specify the maximum pressure to which water will be supplied from the water supply system.
 - (3) The municipality may, in an emergency or during maintenance, interrupt the supply of water to any premises without prior notice.
 - (4) If in the opinion of the municipality the consumption of water by a customer adversely affects the supply of water to another customer, it may apply such conditions or restrictions as it may consider fit, to the supply of water to customer in order to ensure a reasonable supply of water to the other customer and must notify that customer about the restrictions.
 - (5) The municipality shall not be liable for any damage to property caused by water flowing from any water installation that is left open when the water supply is reinstated, after an interruption in supply.
 - (6) Every steam boiler, hospital, industry and any premises which requires, for the purpose of the work undertaken on the premises, a continuous supply of water shall have a storage tank, which must comply with the specification for water storage tanks as stipulated in SANS 0252 Part 1, with a capacity of not less than 24 hours water supply calculated as the quantity required to provide the average daily consumption, where water can be stored when the continuous supply is disrupted.
 - (7) No customer shall resell water supplied to him by the municipality, unless approved by the municipality, and only subject to the maximum prescribed reselling price and such other conditions that the municipality may impose.

Part 3: Measurement

15. Measurement of Quantity of Water Supplied

1. The municipality—
 - (a) shall provide either a credit meter or a pre-payment meter on every new water supply connection pipe used to supply water to a customer,
 - (b) shall progressively fit a credit meter or a pre-payment meter on every existing water supply connection pipe used to supply water to a customer; and
 - (c) may provide a credit meter or a pre-payment meter on a water supply connection pipe used for a communal water supply.
2. The municipality may replace a credit meter with a prepayment meter as a means of limiting the flow to a customer who is in arrears, after meeting the notice requirements provided for in the municipal by-laws relating to credit control and debt collection.
3. The municipality shall, at regular Intervals, record the quantity of water that was supplied through a credit meter.
4. Any water meter and its associated apparatus through which water is supplied to a customer by the municipality, shall be provided and installed by the municipality, shall remain its property and may be changed and maintained by the municipality when it considers it necessary to do so.
5. The municipality may install a water meter, and its associated apparatus, at a point on the water Installation Instead of or in addition to installing a meter on the water connection pipe.
6. If the municipality installs a measuring device together with its associated apparatus on a water Installation, the owner shall—
 - (a) provide a place satisfactory to the municipality in which to install it.
 - (b) ensure that unrestricted access is available to it at all times.
 - (c) be responsible for its protection and be liable for the costs arising from damage to it, excluding damage arising from normal fair wear and tear.
 - (d) ensure that no connection is made to the pipe in which the measuring device is installed between the measuring device and the connection pipe serving the installation.

- (e) make provision for the drainage of water which may be discharged from the pipe, in which the measuring device is installed, in the course of work done by the municipality on the measuring device; and
 - (f) not use, or permit to be used on any water installation, any fitting, machine or appliance which causes damage or which, in the opinion of the municipality, is likely to cause damage to any meter.
7. No person other than the municipality shall—
- (a) disconnect a water meter and its associated apparatus from the pipe on which they are installed.
 - (b) break a seal which the municipality has placed on a meter; or
 - (c) in any other way interfere with a water meter and its associated apparatus.
8. If the municipality considers that, in the event of the measuring device being a meter, the size of the meter is unsuitable by reason of the quantity of water supplied to premises, it may install a meter of such size as it may deem necessary and may recover from the owner of the premises concerned the prescribed fees for the installation of the replacement meter.
9. The municipality may, at the owner's expense, install or require the installation, of a measuring device to each business or dwelling unit on any premises, if such units are in separate occupancy, for use in determining the quantity of water supplied to each such unit: Provided that where a fixed quantity water delivery system is used, a single measuring device may be used to supply more than one unit.
10. Failure by the municipality to comply with the period of 180 days referred to in subsection (1), will not disentitle the Council from recovering any monies due to it by a consumer.

16. Measuring of Water Supply to Several Customers on the Same Premises

- (1) Where water is supplied to any premises on which several occupiers are located, the municipality may, in its discretion, provide, and install either—
 - (a) a single water meter in respect of the premises as a whole or any number of such occupiers; or
 - (b) a separate water meter for each occupier or any number thereof; or
 - (c) a bulk meter supplying all individual meters.
- (2) Where the municipality has installed more than one meter, there shall be a separate agreement for water supplied through each meter in terms of the credit control and debt collection by-laws.

17. Quantity of Water Supplied to Customer

- (1) For the purposes of ascertaining the quantity of water that has been measured by a measuring device that has been installed by the municipality and that has been supplied to a customer over a specific period, it will, for the purposes of these by-laws, be presumed except in any criminal proceedings, unless the contrary is proved, that—
 - (a) the quantity, where the measuring device designed to provide an uncontrolled volume of water, is the difference between measurements taken at the beginning and end of that period;
 - (b) the quantity, where the measuring device designed to provide a controlled volume of water, is the volume dispensed by the measuring device;
 - (c) the measuring device was accurate during that period; and
 - (d) the entries in the records of the municipality were correctly made; and
 - (e) if water is supplied to, or taken by, a customer without having passed through a measuring device, the estimate by the municipality of the quantity of that water shall be presumed, except in any criminal proceedings, to be correct unless the contrary is proved.
- (2) Where water supplied by the municipality to any premises is in any way taken by the customer without the water passing through any measuring device

provided by the municipality, the municipality may, for the purpose of rendering an account, estimate, in accordance with subsection (1).

- (3) the quantity of water supplied to the customer during the period that water is so taken by the customer. For the purposes of subsection (2), an estimate of the quantity of water supplied to a customer shall, as the municipality may decide, be based either on—
- a) the average monthly consumption of water on the premises recorded over three succeeding measuring periods after the date on which an irregularity referred to in subsection (2) has been discovered and rectified, or
 - b) the average monthly consumption of water on the premises during any three consecutive measuring periods during the twelve months immediately before the date on which an irregularity referred to in sub-section (2) was discovered.
- (4) Nothing in these by-laws shall be construed as imposing on the municipality an obligation to cause any measuring device installed by the municipality on any premises to be measured at the end of every month or any other fixed period, and the municipality may charge the customer for an average consumption during the interval between successive measurements by the measuring device.
- (5) Until the time when a measuring device has been installed in respect of water supplied to a customer, the estimated or shared consumption of that customer during a specific period, must be based on the average consumption of water supplied to the specific supply zone within which the customer's premises are situated.
- (6) Where in the opinion of the municipality it is not reasonably possible or cost effective to measure water that is supplied to each customer within a determined supply zone, the municipality may determine a tariff or charge based on the estimated or shared consumption of water supplied to that supply zone.
- (7) The municipality must within seven days, on receipt of a written notice from the customer and subject to payment of the determined charge, measure the quantity of water supplied to the customer at a time, or on a day, other than that upon which it would normally be measured.

- (8) If a contravention of subsection (7) occurs, the customer must pay to the municipality the cost of whatever quantity of water was, in the opinion by the municipality, supplied to him.

18. Special Measurement

- (1) If the municipality requires, for purposes other than charging for water consumed, to ascertain the quantity of water which is used in a part of a water installation, the municipality may, after written notice and at its own cost, install a water meter at any point in the water installation that it may specify.
- (2) The installation of a measuring device referred to in subsection (1), its removal, and the restoration of the water installation after such a removal shall be carried out at the expense of the municipality.

19. No reduction of Amount Payable for Water Wasted

A customer shall not be entitled to a reduction of the amount payable for water wasted or lost in a water installation.

Part 4: Audit

20. Water Audit

- 1) The municipality may require a customer to undertake a water audit at the customer's own cost.
- 2) The audit may include a report on the following —
- (a) the amount of water used during the financial year of the municipality.
 - (b) the amount paid for water during the financial year of the municipality.
 - (c) the number of people living on the stand or premises.
 - (d) the number of people permanently working on the stand or premises.
 - (e) the seasonal variation in demand through monthly consumption figures for the financial year of the municipality.
 - (f) the water pollution monitoring methods.
 - (g) the current initiatives for the management of the demand for water.

- (h) the plans to manage the demand for water.
- (i) a comparison of the report with any report that may have been made during the previous three years.
- (j) estimates of consumption by various components of use; and
- (k) a comparison of the above factors with those reported in each of the previous three years, where available.

Part 5: Installation Work

21. Approval of Installation Work

- (1) An owner must obtain the municipality's approval prior to doing installation work; provided that approval shall not be required in the case of water installations in dwelling units or installations where no fire installation is required in terms of SANS 0400 or in terms of any Municipal by-laws, or for the repair or replacement of an existing pipe or water fitting.
- (2) Application for the approval referred to in sub-section (1) shall be made on an approved form and shall be accompanied by—
 - (a) the prescribed charge, if applicable; and
 - (b) copies of the drawings as may be determined by the municipality, giving information in the form required by Clause 4,1.1 of SANS Code 0252: Part 1.
 - (c) a certificate certifying that the installation has been designed in accordance with SANS Code 0252: Part I by a professional engineer.
- (3) The municipality may specify the validity period for any approval to do installation work.
- (4) A complete set of approved drawings of the installation work must be available at the site of the work at all times until the work has been completed.
- (5) If installation work has been done in contravention of sub-section (1) or (2), the municipality may on notice order the owner—

- (a) to rectify the contravention within a specified period.
- (b) If work is in progress, to cease the work; and
- (c) to remove all such work which does not comply with these by-laws.

22. Persons Permitted to do Installation and Other Work

- (1) Only a plumber, a person working under the control of a plumber, or another person authorised in writing by the municipality, shall be permitted to.
 - (a) do Installation work other than the replacement or repair of an existing pipe or water fitting.
 - (b) replace a fixed water heater or its associated protective devices.
 - (c) inspect, disinfect and test a water installation, fire Installation or storage tank.
 - (d) service, repair or replace a back-flow preventer; or
 - (e) install, maintain or replace a meter provided by an owner in a water installation.
- (2) No person shall require or engage a person who is not a plumber to do the work referred to in sub-section (1).
- (3) Notwithstanding the provisions of sub-section (1), the municipality may permit a person who is not a plumber to do installation work on his own behalf on premises owned and occupied solely by himself and his immediate household, provided that such work must be inspected and approved by a plumber at the direction of the municipality.

23. Provision and maintenance of water installations.

- (1) An owner must provide and maintain his water installation at his own cost and except where approved by the municipality, must ensure that the installation is situated within the boundary of his premises.

- (2) An owner must install an isolating valve at a suitable point on the service pipe immediately inside the boundary of the property in the case of a meter installed outside the boundary, and in the case of a meter installed on the premises at a suitable point on his service pipe.
- (3) Before doing work in connection with the maintenance of a portion of his water installation, which is situated outside the boundary of his premises, an owner shall obtain the written consent of the municipality or the owner of the land on which the portion is situated, as the case may be.

24. Technical requirements for a water installation and an electrical storage water heater

All water installations shall comply with SANS 0252 Part 1 and all fixed electrical storage water heaters shall comply with SANS 0254.

25. Use of pipes and water fittings to be approved.

- (1) No person shall, without the prior approval of the municipality, install or use a pipe or water fitting in a water installation unless it—
 - (a) bears the standardisation mark of the South African Bureau of Standards in respect of the relevant SANS specification issued by the Bureau.
 - (b) bears a certification mark issued by the South African Bureau of Standards to certify that the pipe or water fitting complies with a SANS Mark specification, or a provisional specification issued by the SANS; or
 - (c) is on a schedule of pipes and fittings specifically approved by the municipality.
- (2) The municipality may, in respect of any pipe or water fitting whether or not certified by SANS or whether or not it is included on a schedule of pipes and fittings specifically approved by the municipality, impose such conditions, as it may consider necessary in respect of the use or method of installation.

- (3) The municipality may sell copies of the schedule of specifically approved pipes and fittings as well as its conditions of use and installation at the prescribed charge.

26. Labelling of Terminal Water Fittings and Appliances

All terminal water fittings and appliances using or discharging water shall be marked, or have included within its packaging, the following information:

- (a) the range of pressure in kPa over which the water fitting or appliance is designed to operate.
- (b) The flow rate, in litres per minute, related to the design pressure range, provided that this information shall be given for at least the following pressures:
- i 20 kPa,
 - ii 100kPa and
 - iii 400 kPa.

27. Water Demand Management

1. In any water installation where the dynamic water pressure is more than 200 kPa at a shower control valve, and where the plumbing has been designed to balance the water pressures on the hot and cold water supplies to the shower control valve, a shower head with a maximum flow rate of greater than 10 litres per minute must not be installed.
2. The maximum flow rate from any tap installed on a wash hand basin must not exceed 6 litres per minute.

PART 6: Communal Water Supply Services

28. Provision of Water Supply to Several Consumers

1. The Municipality may install a communal standpipe for the provision of water supply services to several consumers at a location it considers appropriate, provided that a majority of consumers, who in the opinion of the Municipality,

constitute a substantial majority, and to whom water services will be provided by the standpipe, has been consulted by him or the municipality.

2. The Municipality may provide communal water supply services through a communal installation designed to provide a controlled volume of water to several consumers.

Part 7: Temporary Water Supply Services

29. Water supplied from a hydrant.

- (1) The municipality may approve a temporary supply of water from one or more fire hydrants specified by it, subject to such conditions imposed by it and for any period and on payment of such prescribed charges, including a deposit.
- (2) Application for such a water supply from a fire hydrant must be made on an approved form.
- (3) The municipality shall install a water meter and the fittings necessary to enable the temporary supply of water from a fire hydrant on payment of the prescribed deposit.
- (4) The water meter and fittings provided by the municipality for the temporary supply of water from a fire hydrant remain the property of the municipality.

Part 8: Boreholes

30. Notification of Boreholes

- (1) No person may sink a borehole on premises situated in a dolomite area, and before sinking a borehole, a person must determine if the premises on which the borehole is to be sunk are situated within a dolomite area.
- (2) The municipality may, by public notice, require—
 - (a) the owner or occupier of any premises to register the borehole on an approved form and to provide it with such information about the borehole that it may require; and
 - (b) that the sinking of a borehole may not commence without the prior approval of the municipality.

- (3) The municipality may require the owner or occupier of any premises who applies to sink a borehole, to undertake an environmental impact assessment of the intended borehole, before granting approval for the borehole.
- (4) The municipality may by notice to an owner or occupier or by public notice, require an owner or occupier who has an existing borehole that is used for water supply services to—
 - (a) obtain approval from it for the use of a borehole for potable water supply services in accordance with sections 6, 7 and 22 of the Act; and
 - (b) the municipality may impose conditions in respect of the use of a borehole for potable water services.

Part 9: Fire Extinguishing Connections and Installations

31. Fire Extinguishing Connections

- 1) The municipality may at its sole discretion grant or refuse an application for the connection of a fire extinguishing installation to the municipality's main and may at its sole discretion impose conditions for such a connection.
- 2) No water connection shall be made to any fire extinguishing Installation until the municipality has approved that the Installation complies with the requirements of these and any other by-laws of the municipality.
- 3) If in the municipality's opinion a fire extinguishing installation is not being properly maintained or is being used for purpose other than for fire extinguishing, the municipality may on 14 (fourteen) working days' notice order the Installation to be disconnected from the main or may itself disconnect it at the customer's expense.
- 4) A fire extinguishing Installation must comply with the provisions of SANS Code 0252-1: 1994 or any revision or substitution thereof.
- 5) No new fire extinguishing installation may share a connection with a water supply installation unless otherwise approved by the municipality, and subject to any conditions that the municipality may impose.

- 6) Every connection pipe to a fire extinguishing installation must be fitted with valves and a water meter which shall be:
 - (a) supplied by the municipality at the expense of the owner of the premises; and
 - (b) installed in such a position as may be determined by the municipality.
- 7) The municipality does not guarantee any minimum or maximum pressure at any time in any connection used for fire extinguishing purposes.
- 8) The pipe leading from a header tank to a fire extinguishing sprinkler installation may be in direct communication with the main, provided that such a pipe must be equipped with a reflux valve which, if for any reason the pressure in the main falls or is reduced, will prevent backflow from the header tank to the main.
- 9) Where a fire extinguishing sprinkler installation is provided with a duplicate supply from a separate main, each supply pipe must be equipped with a reflux valve situated within the premises.

Part 10: Commercial water services

1. Every commercial industry or institution which require, for the purpose of the work undertaken on the premises, a continuous supply of water shall have a storage tank, which must comply with the specification for water storage tanks as stipulated in SANS 0252 Part 1, with a capacity of not less than 24 hours water supply calculated as the quantity required to provide the average daily consumption, where water can be stored when the continuous supply is disrupted.
2. **Protection of water supply system**

The owner shall take such measures as may be required by the Municipality to prevent the backflow of water from the water installation to the water supply system in the case of—

 - (a) a fire or combined installation on premises; and
 - (b) a general installation serving the following activities—
 - (i) medical treatment of people or animals;

- (ii) medical, pharmaceutical or chemical research and manufacturing;
- (iii) agriculture, including dairies and nurseries;
- (iv) photographic processing;
- (v) laundering and dry-cleaning;
- (vi) metal plating;
- (vii) treatment of skins and hides;

(c) a general installation serving—

- (i) mortuaries;
- (ii) abattoirs;
- (iii) sewage purification works;
- (iv) refuse processing plants;
- (v) oil processing and storage facilities;
- (vi) wineries, distillers, breweries, yeast and cold drink factories;
- (vii) car washes, taxi ranks, gardens, public toilets, sports facilities; or
- (viii) any other premises on which an activity is carried out which in the opinion of the Municipality is likely to cause a danger to health or affect the potability of water in the event of a substance resulting from such activity entering the water supply system.

32. Use of Water from a Fire Installation Connection

- (1) A connection pipe for the sole purpose of fire extinguishing services may only be used for extinguishing fires or for servicing and testing the fire extinguishing Installation and no water may be taken for any other purpose.
- (2) Except where a system is a combined fire extinguishing and general water supply installation with a combination meter, all private hydrants and hose-reels must be sealed by the municipality and the seals must not, except for the purposes of opening the hydrant or using the hose when there is a fire be broken by any person other than by the municipality in the course of servicing and testing.

- (3) The owner must give the municipality at least 48 hours' notice prior to a fire extinguishing installation being serviced and tested.
- (4) The cost of resealing fire hydrants and fire hose-reels shall be borne by the owner except when the seals are broken by the municipality's authorised officers or agents for testing purposes.
- (5) Any water consumed through a fire installation or sprinkler system shall be paid for by the owner at the charges determined by the municipality.

CHAPTER 5: CONDITIONS FOR SANITATION SERVICES

Part 1: Connection to Sanitation System

33. Obligation to Connect to Sanitation System

- (1) All premises on which sewage is produced must be connected to the municipality's sanitation system if a connecting sewer is available, unless the municipality has approved the use of on-site sanitation services either for the individual premises or for a specified area.
- (2) The municipality may, by notice, order the owner of premises not connected to the municipality's sanitation system to connect to the sanitation system.
- (3) An owner of any premises who connects the premises to the municipality's sanitation system must inform the municipality in writing of any sanitation services, provided by the municipality on the site, which will no longer required as a result of the connection to the sanitation system,
- (4) The owner of premises will be liable for any charge payable in respect of sanitation services on the site, until an agreement for rendering those services has been concluded in accordance with the municipality's by-laws relating to credit control and debt collection.
- (5) If the owner fails to connect the premises to the sanitation system after having had a notice in terms of sub-section (2) the municipality, notwithstanding any other action that it may take in terms of these bylaws, may impose the prescribed penalty.

34. Provision of Connecting Sewer

- (1) If an agreement for sanitation services in respect of premises has been concluded in accordance with the municipality's by-laws relating to credit control and debt collection and no connecting sewer exists in respect of the premises, the owner shall make application on the approved form, and pay the prescribed tariffs and charges for the installation of a connecting sewer.
- (2) If an application is made for sanitation services which are of such an extent or so situated that it will become necessary to extend, modify or upgrade the sanitation system in order to provide sanitation services to any premises, the municipality may require the owner to pay for the cost, as determined by the municipality, of the extension, modification or upgrading of the services.
- (3) Only the municipality may install a connecting sewer; but the owner may connect the sanitation Installation to the connection pipe.
- (4) No person may commence any development on any premises that must be connected to the municipality's sanitation system unless the municipality has installed a connecting sewer.

35. Location of Connecting Sewer

- (1) A connecting sewer that has been provided and installed by the municipality must—
 - (a) be located in a position determined by the municipality and be of a suitable size determined by the municipality; and
 - (b) terminate at—
 - (i) the boundary of the premises; or
 - (ii) at the connecting point if it is situated on the premises.
- (2) The municipality may on the application of the owner, approve, subject to any conditions that it may impose, a connection to a connecting sewer other than one that is most readily available for the provision of sanitation services to the premises; In which event the owner shall be responsible for any extension of the drainage installation to the connecting point designated by the municipality and

for obtaining, at his own cost, any servitude over other premises that may be necessary.

- (3) Where an owner is required to provide a sewage lift as provided for in terms of the Building Regulations, or the premises are at a level where the drainage installation cannot discharge into the sewer by gravitation, the rate and time of discharge into the sewer must be approved by the municipality.
- (4) The prescribed connection charges must be paid before a connection to the connecting sewer may be made.

36. Provision of one connecting sewer for several customers on same premises

- (1) Unless otherwise approved, only one connecting sewer to the sanitation system may be provided for the disposal of sewage from any premises.
- (2) Where the provision of more than one connecting sewer is approved by the municipality, the prescribed tariffs and charges for the provision of a connecting sewer are payable in respect of each sewage connection so provided.

37. Interconnection between Premises

An owner of premises must ensure, unless he has obtained the prior approval of the municipality and complies with any conditions that it may have imposed, that no interconnection exists between the drainage installation on his premises and the drainage installation on any other premises.

38. Disconnection of Connecting Sewer

The municipality may disconnect a drainage installation from the connection pipe and remove the connection pipe on the termination of an agreement for the provision of water supply services in accordance with the municipality's by-laws relating to credit control and debt collection.

Part 2: Standards**39. Standards for Sanitation Services**

Sanitation services provided by the municipality must comply with the minimum standards set for the provision of sanitation services in terms of the section 9 of the Act.

Part 3: Methods for Determining Charges**40. Measurement of Quantity of Domestic Effluent Discharged**

The quantity of domestic effluent discharged shall be determined as a fixed or variable percentage of water supplied by the municipality to the customer and supplied from other sources if any; provided that where the municipality is of the opinion that such a percentage in respect of specific premises is excessive, having regard to the purposes for which water is consumed on those premises, the municipality may reduce the percentage applicable to those premises to a figure which, in its opinion and in the light of the available information, reflects the proportion between the likely quantity of sewage discharged from the premises and the quantity of water supplied.

41. Measurement of Quantity and Determination of Quality of Industrial Effluent Discharged

- (1) The quantity of industrial effluent discharged into the sanitation system must be determined—
 - (a) where a meter is installed on the connecting sewer, by the quantity of Industrial effluent discharged from the premises as measured by that meter; or
 - (b) until the time that a meter is installed on the sewer connection, by a fixed percentage of the water supplied by the municipality and supplied from other sources to those premises.
- (2) The municipality may require the owner of any premises to install on any drainage installation conveying Industrial effluent to a sewer, a meter of an approved type and in the control of the municipality for the purpose of

ascertaining to the satisfaction of the municipality, the tempo, volume, and composition of the effluent.

- (3) The municipality may install and maintain a meter referred to in subsection (2) at the expense of the owner of the premises on which it is installed.
- (4) The municipality may at its discretion enter into an agreement with any person discharging industrial effluent into the sanitation system, establishing an alternative method of assessing the quantity and tempo of effluent so discharged,
- (5) Charges relating to the quality of industrial effluent will be based on the prescribed formula for industrial effluent discharge charges as prescribed in Schedule C.
- (6) The following conditions apply in respect of the assessment of the concentrations and properties of the industrial effluent discharged for purposes of determining the effluent discharge quality charges:
 - (a) each customer must conduct the tests prescribed in the approval to discharge industrial effluent and report the results to the municipality.
 - (b) the method of testing must comply with the methods established by SANS, and if not prescribed, then according to a method approved by the municipality.
 - (c) the municipality may conduct random compliance tests to confirm the tests referred to in sub-section (a) and, if discrepancies are found, the values of the municipality shall, unless proved otherwise be presumed to be correct.
 - (d) whenever the municipality takes a sample for testing purposes, a sample taken at the same point and at the same time must be made available to the customer.
 - (e) the weighted average results of the tests taken during the period of charge, will be used to determine the effluent discharge quality charges payable.

- (7) At the discretion of the municipality, the charges for industrial effluent may be changed to a fixed monthly charge determined by taking into consideration the strength and volume of the effluent discharged by a customer.

Part 4: Drainage Installations

42. Technical Requirements for Drainage Installations

All drainage installations shall comply with SANS code 0252 and the National Building Regulations.

43. Installation of Drainage Installations

- (1) An owner must maintain his drainage installation at his own cost, unless the installation constitutes a basic sanitation facility as determined by the municipality and the owner is registered as an indigent for purposes of receiving subsidised services in terms of the by-laws relating to debt collection and credit control, and except where otherwise approved by the municipality, must ensure that the installation is situated within the boundary of his premises.
- (2) The municipality may prescribe the point in the sewer, and the depth below the ground, at which any drainage installation is to be connected and the route to be followed by the drain to the connecting point and may require the owner not to commence the construction or connection of the drainage installation until the municipality's connecting sewer has been.
- (3) The top level of all service access holes, inspection chambers and gullies must be above the 1 in 50 years flood level,
- (4) A drainage installation passing through ground which in the opinion of the municipality is susceptible to movement, shall be laid on a continuous bed of river sand or similar granular material not less than 100 mm thick under the barrel of the pipe and with a surround of similar material and thickness, and the joints of such drains must be flexible joints approved by the municipality.
- (5) A drainage installation or part of it may only be laid within, or under or passing through a building, with the approval of the municipality.

- (6) A drainage installation or part of it which is laid in an inaccessible position under a building may not bend or change gradient.
- (7) After the completion of any drainage installation, or after any alteration to any drainage installation is completed, the plumber responsible for the execution of the work must submit to the building inspection section of the municipality a certificate certifying that the work was completed to the standards set out in the National Building Regulations, these by-laws and any other relevant law or by-laws.
- (8) No person shall permit the entry of any liquid or solid substance whatsoever, other than clean water for testing purposes, to enter any drainage installation before the drainage installation has been connected to the sewer.

44. Approval of Drainage Installation Work

- (1) A person may only commence with drainage installation work after obtaining the municipality's approval.
- (2) Application for the approval referred to in sub-section (1) must be made on the approved form and shall be accompanied by—
 - (a) the prescribed charge, if such a charge is prescribed.
 - (b) copies of all drawings that may be required and approved by the municipality; and
 - (c) a certificate by a professional engineer certifying that the installation has been designed in accordance with any applicable SANS Codes.
- (3) The municipality may specify the duration for which the approval is valid.
- (4) When approval has been given in terms of sub-section (1), a complete set of the drawings that have been required and approved by the municipality must be available for inspection at the site during working hours until the work has been completed.
- (5) If installation work has been done in contravention of sub-sections (1) or (2), the municipality may require the owner—

- (a) to rectify the contravention within a specified time.
- (b) if work is in progress, to cease the work; and
- (c) to remove all work that does not comply with these by-laws,

45. Persons Permitted to do drainage Installation and Other Work

- (1) No person who is not a plumber, or working under the control of a plumber, shall be permitted to—
 - (a) do drainage installation work other than the replacement or repair of an existing pipe or sanitation fitting.
 - (b) Inspect, disinfect and test a drainage installation, fire installation or storage tank.
 - (c) service, repair or replace a back flow preventer; or
 - (d) install, maintain or replace a meter provided by an owner in a drainage Installation.
- (2) No person shall require or engage a person who is not a plumber to do the work referred to in sub-section (1).
- (3) Notwithstanding the provisions of sub-sections (1) and (2), the municipality may permit a person, who is not a plumber, to do installation work at his own premises if they are occupied by himself or his own household, but if permission is given, the work must be inspected and approved by a plumber under the direction of or who has been nominated by, the municipality.

46. Use of Approved Pipes and Sanitation Fittings

- (1) No person shall, without the prior approval of the municipality, install or use a pipe or sanitation fitting in a drainage installation within the municipality's area of jurisdiction unless—
 - (a) it bears the standardisation mark of the South African Bureau of Standards In respect of the relevant SANS specification issued by the Bureau; or

- (b) it bears a certification mark issued by the South African Bureau of Standards to certify that the pipe or sanitation fitting—
 - (i) complies with a SANS Mark specification; or
 - (ii) a provisional specification Issued by the SANS.
 - (c) is on a schedule of pipes and fittings specifically approved by the municipality.
- (2) The municipality may, in respect of any pipe or fitting whether or not certified by SANS or whether or not it is included on a schedule of specifically approved pipes and fittings, impose such conditions, as it may consider necessary in respect of the use or method of installation.
- (3) The municipality may sell copies of the schedule of specifically approved pipes and fittings and conditions of use and method of installation at the prescribed charge.

47. Testing of Drainage Installations

- (1) No drainage installation, nor any part of one, shall be connected to on-site sanitation services nor shall the municipality's sanitation system be connected to an existing approved Installation, unless any one or more of the following tests have been applied in the presence and to the satisfaction of the municipality, before the draining installation has been enclosed.
- (a) the interior of every pipe or series of pipes between two points of access shall be inspected throughout its length by means of a mirror and a source of light, and during the inspection, a full circle of light must appear to the observer, and the pipe or series of pipes must be seen to be unobstructed.
 - (b) a smooth ball having a diameter 12mm less than the nominal diameter of the pipe shall, when inserted at the higher end of the pipe, roll down without assistance or Interruption to the lower end.
 - (c) After all openings to the pipe or series of pipes to be tested have been plugged or sealed and after all traps associated with them have been

filled with water, air shall be pumped into the pipe or pipes until a manometric pressure of 38mm of water is indicated, after which the pressure must remain greater than 25mm of water for a period of at least 3 (three) minutes without further pumping; and

- (d) all parts of the drainage installation are subjected to and required to withstand an internally applied hydraulic test pressure of not less than a 3m head of water for a period of not less than 10 minutes.
- (2) If the municipality has reason to believe that any drainage Installation or any part of it is defective, It may require the owner of any premises to conduct any or all of the tests prescribed in sub-sections (1) and (2) and, if the installation fails to pass any test, or all the tests, to the satisfaction of the municipality, the municipality may by notice require the owner to take all reasonable measures that may be necessary to enable the installation to satisfy any or all of them.

48. Disconnection of Drainage Installations

- (1) Except for the purpose of carrying out maintenance or repair work, no drainage installation may be disconnected from the connection point other than in accordance with this section.
- (2) Where any part of a drainage installation is disconnected from the remainder because it will no longer be used, the disconnected part must be destroyed or entirely removed from the premises on which it was used, unless the municipality approves otherwise.
- (3) When a disconnection has been made after all the requirements of the National Building Regulations in regard to disconnection have been compiled with, the municipality must upon the request of the owner, issue a certificate certifying that the disconnection has been completed in terms of the Building Regulations.
- (4) Charges raised in respect of the disconnected drainage installation shall cease to be levied from the end of the month during which such a certificate was Issued.

- (5) When a drainage Installation is disconnected from a sewer, the municipality must seal the opening caused by the disconnection and may recover the cost of doing so from the owner of the premises on which the installation is disconnected.

49. Maintenance of Drainage Installations

- (1) An owner must maintain his drainage installation at his own cost.
- (2) Where any part of a drainage installation is used by two or more owners or occupiers, they shall be jointly and separately liable for the maintenance of the Installation,
- (3) The owner of any premises must ensure that all manholes and cleaning eyes on the premises are permanently visible and accessible.

50. Drainage installation and Sewer Blockages

- (1) When the owner or occupier of premises has reason to believe that a blockage has occurred in the sewer system, he shall immediately inform the municipality.
- (2) Where a blockage has been removed from a sewer system by the municipality and the removal necessitated the disturbance of an owners paving, lawn or other artificial surface, the municipality shall not be required to restore them to their previous condition and shall not be responsible for any damage to them unless caused by the wrongful act or negligence of the municipality.
- (3) When the owner or occupier of premises has reason to believe that a blockage has occurred in any drainage installation in or on it, he shall take immediate steps to have it cleared.
- (4) Should any drainage installation on any premises overflow as a result of an obstruction in the sewer, and if the municipality is reasonably satisfied that the obstruction was caused by objects emanating from the drainage Installation, the owner of the premises served by the drainage installation shall be liable for the cost of clearing the blockage.

- (5) Where a blockage has been removed from a drainage installation or portion of a drainage installation which serves two or more premises, the owners are jointly and severally liable for the cost of clearing the blockage.

51. Grease Traps

- (1) A grease trap of an approved type, size and capacity must be provided in respect of all premises that discharge sewage to on-site sanitation systems,
- (2) Grease traps, tanks or chambers of an approved design must be provided in respect of all premises that discharge industrial and commercial effluent which contains, or which, in the opinion of the municipality, is likely to contain, grease, oil, fat of inorganic solid matter.
- (3) No person may cause or permit an accumulation of grease, oil, fat, solid matter, or any other substance in any trap, tank, or chamber that may cause its blockage or ineffective operation.
- (4) Any person discharging effluent to a tank or chamber must remove grease, oil, fat, or solid matter regularly from the tank or chamber and must maintain a register recording—
 - (a) the dates on which the tank or chamber was cleaned.
 - (b) the name of any the persons employed by him to clean the tank or chamber or, if he cleaned it himself, that fact that he did so; and
 - (c) a certificate from the person employed to clean it certifying that the tank or chamber has been cleaned and stating the manner in which the contents of the tank or chamber were disposed of, or, if he cleaned it himself, his own certificate to that effect.

52. Mechanical Appliances for Lifting Sewage

- (1) The owner of any premise must obtain the approval of the municipality before installing any mechanical appliance for the raising or transfer of sewage in terms of the Building Regulations.

- (2) Approval must be applied for by a professional engineer and must be accompanied by drawings prepared in accordance with the relevant provisions of the National Building Regulations and must show details of the compartment containing the appliance, the sewage storage tank, the stilling chamber and their position, and the position of the drains, ventilation pipes, rising main, and the sewer connection.
- (3) Notwithstanding any approval given in terms of sub-section (1), the municipality shall not be liable for any injury, loss or damage to life or property caused by the use, malfunctioning or any other condition arising from the installation or operation of a mechanical appliance for the raising or transfer of sewage unless the injury or damage be caused by the wrongful Intentional or negligent act or negligence of an employee of the municipality.
- (4) Every mechanical appliance installed for the raising or transfer of sewage shall be specifically designed for the purpose and shall be fitted with a discharge pipe, sluice valves and non-return valves located in approved positions.
- (5) Unless otherwise permitted by the municipality, such mechanical appliances shall be Installed in duplicate, and each such appliance shall be so controlled that will Immediately begin to function automatically in the event of failure of the other.
- (6) Every mechanical appliance forming part of a drainage Installation shall be located and operated so as to not cause any nuisance through noise or smell or otherwise, and every compartment containing any such appliance must be effectively ventilated.
- (7) The maximum discharge rate from any mechanical appliance, and the times between which the discharge may take place, shall be as determined by the municipality who may, at any time, require the owner to install such fittings and regulating devices as may in his opinion, be necessary to ensure that the determined maximum discharge rate shall not be exceeded.
- (8) Except where sewage storage space is Incorporated as an Integral part of a mechanical appliance, a sewage storage tank must be provided in conjunction with such appliance and such a sewage storage tank must—

- (a) be constructed of hard, durable materials and must be watertight and the internal surfaces of the walls and floor must be smooth and impermeable.
- (b) have a storage capacity below the level of the inlet equal to the quantity of sewage discharged there into it in 24 hours or 900 litres, whichever is the greater quantity.
- (c) be so designed that its maximum storage capacity shall be emptied at each discharge cycle of the mechanical appliance; and
- (d) be provided with a ventilation pipe in accordance with the municipality's specifications.

Part 5: On-Site Sanitation Services and Associated Services

53. Installation of On-Site Sanitation Services

- (1) If approval for on-site sanitation services in respect of premises has been granted, or if it is not reasonably possible or cost effective for the municipality to install a connecting sewer, the owner must install sanitation services specified by the municipality on the site unless the owner is registered as an indigent in terms of the municipality's bylaws on credit control and debt collection and the municipality has undertaken to provide the service or subsidise the service.
- (2) The municipality may undertake or require to be undertaken at the owner's expense such investigations as it may deem necessary to determine if a sanitation facility would have a detrimental impact on health or the environment.

54. Ventilated Improved Pit Latrines

- (1) The municipality may, on such conditions as it may prescribe, having regard to factors such as the nature and permeability of the soil, the depth of the water table, the size of, and access to the site and the availability of a piped water supply, approve the disposal of human excrement by means of a ventilated improved pit (VIP) latrine.

- (2) A ventilated Improved pit latrine must have—
- (a) a pit of 2 m³ capacity.
 - (b) Lining as required
 - (c) a slab covering the pit designed to support the superimposed loading.
 - (d) protection preventing children from falling into the pit.
 - (e) the pit must be ventilated by means of a pipe, sealed at the upper end with durable insect proof screening fixed firmly in place.
 - (f) the ventilation pipe must project not less than 0.5 m above the latrines roof, must be of at least 150 mm in diameter, and must be installed vertically with no bend.
 - (g) the interior of the superstructure must be finished smooth so that it can be kept in a clean and hygienic condition.
 - (h) the superstructure must be well-ventilated in order to allow the free flow of air into the pit to be vented through the pipe.
 - (i) the opening through the slab must be of adequate size as to prevent fouling. The rim must be raised so that liquids used for washing the floor do not flow into the pit. It shall be equipped with a lid to prevent the egress of flies and other Insects when the toilet is not in use.
 - (l) the pit latrine must be sited in a position that is independent of the dwelling unit.
 - (j) the pit must be sited in a position that is accessible to road vehicles having a width of 3.0 m in order to facilitate the emptying of the pit.
 - (k) in situations where there is the danger of polluting an aquifer due to the permeability of the soil, the pit must be lined with an Impermeable material that is durable and will not crack under stress; and
 - (l) In situations where the ground in which the pit is to be excavated is unstable, suitable support is to be given to prevent the collapse of the soil.

55. Septic Tanks and Treatment Plants

- (1) The municipality may, on such conditions as it may prescribe, approve the disposal of sewage or other effluent by means of septic tanks or other onsite sewage treatment plants.
- (2) A septic tank or other sewage treatment plant on a site must not be situated closer than 3 metres to any dwelling unit or to any boundary of the premises on which it is situated.
- (3) Effluent from a septic tank or other on-site sewage treatment plant must be disposed of to the satisfaction of the municipality.
- (4) A septic tank must be watertight, securely covered and provided with gastight means of access to its interior adequate to permit the inspection of the inlet and outlet pipes and adequate for the purpose of removing sludge.
- (5) A septic tank serving a dwelling unit must—
 - (a) have a capacity below the level of the invert of the outlet pipe of not less than 500 litres per bedroom or 2 500 litres, whichever is the greater.
 - (b) have an internal width of not less than 1 metre measured at right angles to the direction of the flow.
 - (c) have an internal depth between the cover and the bottom of the tank of not less than metre; and
 - (d) retain liquid to a depth of not less than 1,4 metre.
- (6) Septic tanks serving premises other than a dwelling unit must be designed and certified by a professional civil engineer.
- (7) No rainwater, stormwater, or effluent other than that approved by the municipality may be discharged into a septic tank.

56. French-drains

- (1) The municipality may, on such conditions as it may prescribe having regard to the quantity and the nature of the effluent and the nature of the soil as determined by the permeability test prescribed by the South African Bureau of Standards, approve the disposal of wastewater or other effluent by means of a french-drain, soakage pit or other approved work.
- (2) A french-drain, soakage pit or other similar work shall not be situated closer than 5 m to any dwelling unit or to any boundary of any premises on which it is situated, or in any such position that will, in the opinion of the municipality, cause contamination of any borehole or other source of water which is, or may be, used for drinking purposes, or cause dampness in any building.
- (3) The dimensions of any french-drain, soakage pit or other similar work shall be determined in relation to the absorbent qualities of the soil and the nature and quantity of the effluent,
- (4) A french-drain serving premises other than a dwelling unit must be designed and certified by a professional engineer.

57. Conservancy Tanks

- (1) The municipality may, on such conditions as it may prescribe; approve the construction of a conservancy tank and ancillary appliances for retention of sewage or effluent.
- (2) No rainwater, stormwater, or effluent other than approved by the municipality may be discharged into a conservancy tank,
- (3) No conservancy tank must be used as such unless—
 - (a) the invert of the tank slopes towards the outlet at a gradient of not less than 1 in 10.
 - (b) the tank is gas and watertight.
 - (c) the tank has an outlet pipe, 100 mm in internal diameter, made of wrought iron, cast iron or other approved material, and except if otherwise approved

by the municipality, terminating at an approved valve and fittings for connection to the municipality's removal vehicles.

(d) the valve and fittings referred to in paragraph (c) or the outlet end of the pipe, as the case may be, are located in a chamber that has hinged cover approved by the municipality and which is situated in a position required by the municipality.

(e) access to the conservancy tank must be provided by means of an approved manhole fitted with a removable cast iron cover placed immediately above the visible spigot of the Inlet pipe.

- (4) The municipality may, having regard to the position of a conservancy tank or of the point of connection for a removal vehicle, require the owner or customer to Indemnify the municipality, in writing, against any liability for any damages that may result from rendering of that service as a condition for emptying the tank.
- (5) Where the municipality's removal vehicle has to traverse private premises for the emptying of a conservancy tank, the owner shall provide a roadway at least 3,5 m wide, so hardened as to be capable of withstanding a wheel load of 4 metric tons in all weather, and shall ensure that no gateway through which the vehicle is required to pass to reach the tank, shall be less than 3,5 m wide for such purposes.
- (6) The owner or occupier of premises on which a conservancy tank is installed shall at all times maintain the tank in good order and condition to the satisfaction of the municipality.

58. Operation and Maintenance of On-Site Sanitation Services

- (1) The operation and maintenance of on-site sanitation services and all costs pertaining to it remains the responsibility of the owner of the premises, unless the occupier is registered as an indigent in accordance with the municipality's by-laws relating to credit control and debt collection.

- (2) The charges for removing or disposing of any sludge from on-site sanitation systems by the municipality shall be assessed in accordance with the prescribed charges.

59. Disused Conservancy and Septic Tanks

If an existing conservancy tank or septic tank is no longer required for the storage or treatment of sewage, or if approval for its use is withdrawn, the owner must either cause it to be completely removed or to be completely filled with earth or other suitable material, provided that the municipality may require a tank to be dealt with in another way, or approve its use for other purposes, subject to any conditions specified by him.

Part 6: Industrial Effluent

60. Approval to Discharge Industrial Effluent

- (1) No person shall discharge or cause or permit industrial effluent to be discharged into the sanitation system except with the approval of the municipality.
- (2) A person must apply for approval to discharge industrial effluent into the sanitation system of the municipality on the prescribed form attached as Schedule B to these by-laws.
- (3) The municipality may, if in its opinion the capacity of the sanitation system is sufficient to permit the conveyance and effective treatment and lawful disposal of the industrial effluent, for such period and subject to such conditions it may impose, approve the discharge of industrial effluent into the sanitation system.
- (4) Any person who wishes to construct or cause to be constructed, a building which shall be used as a trade premises, must at the time of lodging a building plan in terms of section 4 of the National Building Regulations and Building Standards 103 of 1977, also lodge applications for the provision of sanitation services and for approval to discharge industrial effluent,

61. Withdrawal of Approval to Discharge Industrial Effluent

- (1) The municipality may withdraw any approval to a commercial customer, who has been authorised to discharge Industrial effluent into the sanitation system, upon giving notice, If the customer—
 - (a) falls to ensure that the Industrial effluent discharged conforms to the Industrial effluent standards prescribed in Schedule A of these by-laws or a standard that has been otherwise approved by the municipality.
 - (b) falls or refuses to comply with any notice lawfully served on him in terms of these by-laws, or contravenes any provisions of these bylaws or any condition imposed in terms of any permission granted to him; or
 - (c) fails to pay the charges in respect of any Industrial effluent discharged.
- (2) The municipality may on withdrawal of any approval—
 - (a) in addition to any steps required by in these by-laws, and on written notice, authorise the closing or sealing of the connecting sewer of the said premises; and
 - (b) refuse to receive any industrial effluent until it is satisfied that adequate steps to ensure that the industrial effluent that is to be discharged conforms to the standards required by these by-laws.

62. Quality Standards for Disposal of Industrial Effluent

- (1) A commercial customer to whom approval has been granted must ensure that no industrial effluent is discharged into the sanitation system of the municipality unless it complies with the standards and criteria set out in Schedule A.
- (2) The municipality may approve standards other than the standards In Schedule A, provided that it is satisfied that such a relaxation will not detrimentally affect the operations of the sewage treatment plant.
- (3) Test samples may be taken at any time, without notice, by the municipality to ascertain whether the industrial effluent complies with Schedule A or any other approved standard. .

63. Conditions for the Discharge of Industrial Effluent

- (1) The municipality may on granting approval for the discharge of Industrial effluent, or at any time that it considers appropriate, by notice, require a commercial customer to—
 - (a) subject the industrial effluent to such preliminary treatment as in the opinion of the municipality will ensure that the industrial effluent conforms to the standards prescribed in Schedule A or other approved standard before being discharged into the sanitation system; .
 - (b) install equalising tanks, valves, pumps, appliances, meters and other equipment which, In the opinion of the municipality, will be necessary to control the rate and time of discharge into the sanitation system in accordance with the conditions imposed by it.
 - (c) install for the conveyance of the industrial effluent into the sanitation system at a given point, a drainage installation separates from the drainage installation for other sewage and may prohibit a commercial customer from disposing of his industrial effluent at any other point.
 - (d) construct on any pipe conveying industrial effluent to any sewer, a service access hole or stop-valve in such position and of such dimensions and materials as the municipality may prescribe.
 - (e) provide all information that may be required by the municipality to enable it to assess the tariffs or charges due to the municipality and compliance with the standards of the municipality.
 - (f) provide adequate facilities including, but not limited to, level or overflow detection devices, standby equipment, overflow catch-pits, or other appropriate means of preventing a discharge into the sanitation system in contravention of these by-laws.
 - (g) cause a meter installed in terms of this section to be calibrated by an independent authority at the cost of the commercial customer at such intervals as may be required by the municipality and copies of the calibration to be forwarded to It by the commercial customer; and

- (h) cause industrial effluent to be tested as often, and in whatever manner, as may be determined by the municipality and to provide It with the results of these tests.
- (2) The cost of any treatment, plant, work or analysis, which a person may be required to carry out, construct or install in terms of sub-section (1), shall be borne by the customer.
- (3) If industrial effluent that neither complies with the standards in Schedule A nor has been otherwise approved by the municipality Is discharged into the sanitation system, the discharger must Inform the municipality of the non-compliance and of the reasons for it as soon as the discharger becomes aware of the non-compliant discharge.

Part 7: Sewage Delivered by Road Haulage

64. Acceptance of Sewage Delivered by Road Haulage

The municipality may, on its discretion, and subject to such conditions as it may specify, accept sewage for disposal that is delivered to the municipality's sewage treatment plants by road haulage.

65. Approval for Delivery of Sewage by Road Haulage

- (1) No person shall deliver sewage by road haulage in order to discharge it into the municipality's sewage treatment plants except with the approval of the municipality and subject to any conditions, and any times, that may on reasonable grounds be imposed by the municipality.
- (2) The charges for any sewage delivered for disposal to the municipality's sewage treatment plants shall be assessed by the municipality in accordance with the prescribed tariffs of charges.

66. Withdrawal of Permission for Delivery of Sewage by Road Haulage

(1) The municipality may on notice withdraw any approval, given in terms of section 64 if a person who has been allowed to discharge sewerage by road haulage—

- (a) fails to ensure that the sewage conforms to the standards prescribed either in Schedule A or other approved standard, or a condition of approval; or
- (b) fails or refuses to comply with any notice served on him in terms of these by-laws or contravenes any provision of these by-laws or any condition has been imposed on him as a condition of approval; and
- (c) falls to pay all the charges applicable to the delivery of sewage.

67. Conditions for Delivery of Sewage by Road Haulage

(1) When sewage is to be delivered by road haulage—

- (a) the time and place when delivery is to be made shall be arranged in consultation with the municipality; and
- (b) the municipality must approve before a delivery is made, that the sewerage is of a nature suitable for road haulage and that the delivery would comply with the provisions, of these by-laws.

Part 8: Other Sanitation Services**68. Stables and Similar Premises**

(1) The municipality may approve the connection of a drainage installation to stables, cowsheds, dairies, kennels, other premises for the accommodation of animals, and tanneries, subject to the payment of all applicable charges and the fulfilment of any condition that the municipality may impose; but approval will be given only if—

- (a) the floor of the premises is paved with an Impervious material that is approved by the municipality and graded to a silt trap, grease trap or gully of adequate capacity; and
- (b) every part of the floor of the premises is covered by a roof, or another protective device, in a way that adequately prevents the entry of rain or storm water into the drainage Installation.

69. Mechanical Food-Waste or Other Disposal Units

(1) The municipality may approve the connection or incorporation of a mechanical waste food disposal unit or garbage grinder; into a drainage installation, that has a capacity in excess of 500W, subject to the payment of all applicable charges and to any condition that the municipality may impose, but approval will be given only if—

- (a) a measurement device is installed by the municipality; and
- (b) the municipality is satisfied that the municipality's sewerage and sewage treatment system will not be adversely affected.

CHAPTER 6: UNAUTHORISED WATER SERVICES

70. Unauthorised Services

- (1) No person may gain access to water services unless it is in terms of an agreement entered into with the municipality for the rendering of those services in accordance with the municipality's by-laws on credit control and debt collection.
- (2) The municipality may, irrespective of any other action it may take against a person in terms of these by-laws.

(a) by written notice of 14 (fourteen) working days:

(i) order a person who is using unauthorised services to apply for such services; and undertake any work that may be necessary to ensure that the customer installation, by means of which access was gained, complies with the provisions of these or any other relevant by-laws, or

(ii) rectify the non-compliance and recover the cost from the unauthorised user; or

(b) disconnect the service.

71. Interference with Infrastructure for the Provision of Water Services

- (1) No person other than the municipality shall manage, operate, or maintain infrastructure through which water services are provided.
- (2) No person other than the municipality shall make a connection to infrastructure through which water services are provided.
- (3) The municipality may recover any costs associated with repairing damage caused as a result of a contravention of sub-sections (1) and (2) including, but not limited to, the cost associated with repairing the damage, any exploratory investigation, surveys, plans, specifications, schedules of quantities, supervision, administration charge, the use of tools, the expenditure of labour involved in disturbing or rehabilitation of any part of a street or ground affected by the repairs and the environmental cost.
- (4) The municipality may enter any premises for the purposes as indicated in sub-section (1) and (2), at all reasonable times, after having given reasonable written notice to the occupier of the premises of the Intention to do so where appropriate.

72. Obstruction of Access to Infrastructure for the Provision of Water Services

- (1) No person shall prevent or restrict the physical access of the municipality to infrastructure through which water services are provided.
- (2) If a person contravenes sub-section (1), the municipality may—
 - (a) by written notice require such person to restore access at his own expense within a specified period; or
 - (b) on notice restore access itself and recover the cost from such person.
- (3) The costs recoverable by the municipality is the full cost associated with restoring access including, but not limited to, any exploratory investigation, surveys, plans, specifications, schedules of quantities, supervision, administration charge, the use of tools, the expenditure of labour involved in disturbing or rehabilitation of any part of a street or ground affected by restoring access and the environmental cost.

73. Waste of Water

- (1) No customer shall permit—
 - (a) the purposeless or wasteful discharge of water from terminal water fittings.
 - (b) pipes or water fittings to leak.
 - (c) the use of maladjusted or defective water fittings; or
 - (d) an overflow of water to persist.
- (2) An owner shall repair or replace any part of his water and sanitation installation which is in such a state of disrepair that it is either causing or is likely to cause an occurrence listed in sub-section (1).
- (3) If an owner fails to take measures as contemplated in sub-section (2), the municipality shall, by written notice, require the owner to comply with the provisions of sub-section (1).

- (4) The municipality may, by written notice, prohibit the use by a customer of any equipment in a water or sanitation Installation if, in Its opinion, its use of water is Inefficient. Such equipment shall not be returned to use until Its efficiency has been restored and a written application to do so has been approved by the municipality.

74. Unauthorised and Unlawful Discharges

- (1) No person may discharge or cause or permit any sewage to be discharged directly or indirectly into a storm water drain, river, stream or other watercourse, whether natural or artificial.
- (2) No person shall allow the discharge or leakage of any liquid other than natural runoff or potable water to any street, storm water drain or watercourse, whether natural or artificial, except where the municipality has approved such discharge.
- (3) Where the hosing down or flushing by rainwater of an open area on any premises Is In the opinion of the municipality' Is likely to cause the discharge of objectionable matter into any street, storm water drain, river, stream or other watercourse, whether natural or artificial, or to cause or contribute towards the pollution of any such watercourse, the municipality. may, by notice, require the owner of the premises to take reasonable measures to prevent or minimise such discharge or pollution.
- (4) No person may discharge or cause or permit the discharge into a drainage installation of—
- a) any substance, including storm water or swimming pool backwash, other than sewage, domestic wastewater or approved Industrial effluent.
 - b) any sewage, industrial effluent or other liquid or substance which—
 - i. in the opinion of the municipality may be offensive to or may cause a nuisance to the public.
 - ii. is in the form of steam or vapour or has a temperature exceeding 44⁰ C at the point where it enters the sewer.
 - iii. has a pH value less than 6.0.

- iv. contains any substance of whatsoever nature likely to produce or release explosive, flammable, poisonous or offensive gases or vapours in any sewer or treatment plant.
 - v. contains any material of whatsoever nature, including oil, grease, fat or detergents capable of causing obstruction to the flow in sewers or drains or interference with the proper operation of a sewerage treatment works.
 - vi. shows any visible signs of tar or associated products or distillates, bitumen's, or asphalts.
 - vii. contains any substance in such concentration to produce an undesirable taste after chlorination or an undesirable odour or colour, or excessive foam.
 - viii. has either a greater PV or COD (Chemical Oxygen Demand) value, a lower pH value, or a higher caustic alkalinity or electrical conductivity than specified In Schedule A, without the prior approval and subject to the payment of relevant charges and such conditions as the municipality may impose.
 - ix. contains any substance which in the opinion of the municipality—
 - a. cannot be treated at the sewage treatment work to which It could be discharged; or
 - b. will negatively affect the treatment processes at the sewage treatment work to which it could be discharged or
 - c. will negatively Impact on the ability of the sewage treatment work to produce discharges that meet the wastewater discharge standards set in terms of the National Water Act, 1998 (Act No 36 of 1998), or
- (x) either alone or in combination with other substance may—
- a. generate or constitute a toxic substance dangerous to the health of persons employed at the sewage treatment works or entering.
 - b. be harmful to sewers, treatment plant or land used . for the disposal of treated wastewater; or
 - c. adversely affect any of the processes whereby sewage is treated or any re-use of sewage effluent.
- (5) No person shall cause or permit the accumulation of grease, oil, fat or solid matter in any drainage installation that will adversely affect its effective functioning.

- (6) The municipality may, notwithstanding any other actions that may be taken in terms of these by-laws, recover from any person who discharges industrial effluent or any substance which is unauthorised or illegal all costs incurred, by the municipality as a result of such discharges, including costs that result from injury to persons, damage to the sanitation system.

75. Unauthorised and Unlawful Re-Connections

- (1) No customer whose access to water supply services have been restricted or disconnected may reconnect to services without approval.
- (2) A customer who contravenes sub-section (1) shall be disconnected and the customer shall be responsible for the costs thereof.

76. Interference with Infrastructure

- (1) No person may Interfere with infrastructure through which the municipality provides municipal services,
- (2) If a person contravenes sub-section (1), the municipality may—
 - (a) by written notice require such person to seize or rectify the Interference at his own expense within a specified period; or
 - (b) on notice itself, prevent or rectify the interference and recover the cost from such person.

77. Pipes in Streets or Public Places

No person shall lay or construct a pipe or associated component on, in or under a street, public place or other land owned by or under the control of any municipality, except with the approval of the municipality and subject to such conditions as it may impose.

78. Use of Water from Sources Other than the Water Supply System

- (1) No person shall use or permit the use of water for domestic, commercial, or industrial purposes obtained from a source other than from the municipal water supply system or from rainwater tanks which are not connected to the water

installation, except with the prior approval of the municipality, and in accordance with such conditions as it may impose.

- (2) Any person applying for the approval referred to in sub-section (1) shall provide the municipality with evidence that the quality of the water referred to in sub-section (1) complies, whether as a result of treatment or otherwise, with the requirements of SANS 241: Drinking Water, or that the use of such water does not or will not constitute a danger to health,
- (3) Any consent given in terms of sub-section (1) may be withdrawn if, in the opinion of the municipality —
 - (a) a condition imposed in terms of sub-section (1) is breached; or
 - (b) the water quality no longer conforms to the requirements referred to in sub-section (2).
- (4) The municipality may take samples of water obtained from a source, other than the water supply system and cause the samples to be tested for compliance with the requirements referred to in sub-section (2).
- (5) The prescribed charge for the taking and testing of the samples referred to in sub-section (4) above shall be paid by the person to whom consent was granted in terms of sub-section (1).
- (6) If water obtained from a borehole or other source of supply on any premises is used for a purpose which gives rise to the discharge of such water or a portion thereof into the municipality's sewerage system, the municipality may install a water meter in the pipe leading from such borehole or other source of supply to the point or points where it is so used.
- (7) The provisions of section 13 shall apply insofar as they may be applicable in respect of the water meter referred to in sub-section (4).

CHAPTER 7: EMERGENCY SITUATIONS

79. Declaration of Emergency Situations

- (1) The municipal council may at any time declare by public notice, that an emergency situation exists in a supply zone or geographical area in respect of a municipal service, if, in its opinion, a significant risk to the financial viability or sustainability of the municipality, or the sustainable rendering of a specific municipal service to the community exists.
- (2) In the event of the declaration of a supply zone as an emergency area in accordance with sub-section (1) the municipal services to that supply zone may be limited.
- (3) The municipality must submit a monthly report to the municipal council on the status of the emergency and of actions being taken to relieve the emergency.
- (4) The municipal council must by public notice declare an area no longer to be an emergency area if the situation on which the declaration was based Improves to such an extent that the risks referred to in sub-section (1) no longer warrants that supply zone being declared an emergency area.

CHAPTER 8: NOTICES

80. Power to Serve and Compliance with Notices

- (1) The municipality may, by written notice, order an owner, customer or any other person who fails, by act or omission, to comply with the provisions of these by-laws, or to fulfil any condition imposed in it, to rectify his failure within a reasonable period specified in the notice.
- (2) If a person fails to comply with a written notice served on him by the municipality in terms of these by-laws within the specified period, it may take such action that in its opinion is necessary to ensure compliance, including—
 - (a) undertaking the work necessary itself and recovering the cost of such action or work from that owner, customer or other person.

- (b) restricting or discontinuing the provision of services; and
 - (c) instituting legal proceedings,
- (3) A notice in terms of sub-section (1) must—
- (a) give details of any provision of the by-laws that has not been complied with.
 - (b) give the owner, customer, or other person a reasonable opportunity to make representations and state his case, in writing, to the municipality within a specified period, unless the owner, customer or other person was given such an opportunity before the notice was issued.
 - (c) specify the steps that the owner, customer of other person must take to rectify the failure to comply.
 - (d) specify the period within which the owner, customer or other person must take the steps specified to rectify such failure; and
 - (e) indicate that the municipality—
 - (i) may undertake any work that is necessary to rectify a failure to comply with a notice and the cost to the municipality of rectification may be recovered from the owner, customer or other person who has failed to comply with it; and
 - (ii) may take any other action that it considers necessary for ensuring compliance.
- (4) In the event of an emergency the municipality may, without prior notice to anyone, undertake the work required by sub-section (3)(e)(i) and recover the costs from a person who, but for the emergency, would have to be notified in terms of sub-section (1).
- (5) The costs recoverable by the municipality in terms of sub-sections (3) and (4) are the full costs associated with that work including, but not limited to, any exploratory investigation, surveys, plans, specifications, schedules of quantities, supervision, administration charge, the use of tools, the expenditure of labour involved in

disturbing or rehabilitation of any part of a street or ground affected by the work and the environmental cost.

CHAPTER 9: APPEALS

81. Appeals Against Decisions of the Municipality

- (1) A customer may appeal in writing against a decision of, or a notice issued by, the municipality in terms of these by-laws.
- (2) An appeal in terms of sub-section (1) must be made in writing and lodged with the municipality within 14 (fourteen) working days after a customer was informed of the decision or notice and must—
 - a. set out the reasons for the appeal; and
 - b. be accompanied by any security determined by the municipality for the testing of a water meter, if the testing of a water meter was requested.
- (3) The customer must be informed of the outcome of the appeal and the reasons for the municipality's decision within 21 (twenty-one) working days after an appeal was lodged, or if the municipality is unable to decide the matter within that time, the municipality must inform the customer when the appeal will be decided.
- (4) The decision of the municipality is final.
- (5) The municipality may condone the late lodging of appeals or other procedural irregularities.

CHAPTER 10: OFFENCES

82. Offences

- (1) Subject to sub-section (2), any person who—
 - (a) obstructs or hinders the municipality in the exercising of the powers or performance of functions or duties under these by-laws.

- (b) uses, tampers, or interferes with municipal equipment, the water supply system, sanitation system and reticulation network or consumption of services rendered.
 - (c) contravenes or fails to comply with a provision of these by-laws other than a provision relating to payment for municipal services.
 - (d) fails to comply with the terms of a notice served upon him in terms of these by-laws.
- (2) No person shall be liable to imprisonment if he is unable to afford to pay a fine and shall instead be liable to a period of community service.
- (3) Any person committing a breach of the provisions of these by-laws shall be liable to recompense the municipality for any loss or damage suffered or sustained by it in consequence of the breach.
- (a) reconnects or restores services that have been disconnected or limited without the municipality's approval.
 - (b) is guilty of an offence and liable on conviction to a fine or in default of payment to imprisonment for a period not exceeding 6 months.

CHAPTER 11: GENERAL PROVISIONS

83. Customer care

- (1) The municipality must develop a statement that reflects Its Intention and commitment on service standards in delivering services towards its consumers.
- (2) The municipality should as far as reasonably possibly ensure that consumers are aware of their rights and obligations regarding the use of water services.
- (3) The municipality may make provision for incentive schemes in order to promote the following: -
- (a) repotting of the illegal tampering with municipal infrastructure;

- (b) reporting of any leaks and other damage to municipal Infrastructure;

IMPORTANT: REGULATIONS 13 OF SECTION 19 OF THE WATER SERVICES ACT STIPULATES THAT A WATER SERVICE PROVIDER (WSP) SHOULD PREPARE AND PUBLISH A CONSUMER CHARTER. THIS CHARTER SHOULD BE CONSISTENT WITH THE BY-LAWS OF THE WATER SERVICE AUTHORITY (WSA) AND OTHER REGULATIONS APPROVED BY THE WSA.

FURTHERMORE, CHAPTER 3 OF THE STRATEGIC FRAMEWORK FOR WATER SERVICES STIPULATES THAT A WSP MUST HAVE A CONSUMER CHARTER IF IT PROVIDES RETAIL SERVICES TO CONSUMERS.

IT IS IMPERATIVE THAT THIS CLAUSE BE ADAPTED TO SUIT THE SITUATION OF THE MUNICIPALITY.

84. Provision of Information

An owner, occupier, customer, or person within the area of supply of the municipality must provide the municipality with accurate information requested by the municipality that is reasonably required by the municipality for the implementation or enforcement of these by-laws.

85. Power of Entry and Inspection

- (1) An authorised official or agent of the municipality may enter and inspect any premises for any purpose connected with the implementation or enforcement of these by-laws, at all reasonable times, after having given reasonable written notice to the occupier of the premises of the intention to do so.
- (2) Any entry and Inspection must be conducted in conformity with the requirements of the Constitution of South Africa, 1996, and any other law and, in particular,

with strict regard to decency and order, respect for a person's dignity, freedom and security, and personal privacy,

- (3) The authorised official or agent of the municipality may be accompanied by an Interpreter and any other person reasonably required to assist the authorised official in conducting the Inspection.
- (4) The authorised official or agent of the municipality must, on request, provide his identification.

86. Indemnification from Liability

Neither employees of the municipality nor any person, body, organisation, or corporation acting on behalf of the municipality is liable for any damage arising from any omission or act done in good faith in the course of their duties.

87. Exemption

- (1) The municipality may, in writing exempt an owner, customer, any other person or category of owners, customers, ratepayers, users of services from complying with a provision of these by-laws, subject to any conditions it may impose, if it is of the opinion that the application or operation of that provision would be unreasonable, provided that the municipality shall not grant exemption from any section of these by-laws that may result in—
 - (a) the wastage or excessive consumption of water supply services.
 - (b) significant adverse effects on public health, safety or the environment.
 - (c) the non-payment for services, other than as provided for in the bylaws on credit control and debt collection
 - (d) the Act, or any regulations made in terms of it, not being complied
- (2) The municipality may at any time after giving written notice of at least 14 (fourteen) working days, withdraw any exemption given in terms of subsection (1).

88. Conflict of Law

If there is any conflict between these by-laws and any other by-laws of the municipality, the most recently approved by-laws will prevail.

89. Repeal of Existing Municipal Water Services By-laws

The provisions of any previous by-laws relating to water supply and sanitation services by the municipality are hereby repealed insofar as they relate to matters provided for in these by-laws.

90. Transitional Arrangements

- (1) Installation work authorised by the municipality prior to the commencement date of these by-laws or authorised installation work in progress on that date shall be deemed to have been authorised in terms of these by-laws; and the municipality may, for a period of 90 (ninety) working days after the commencement of these by-laws, authorise installation work in accordance with the by-laws that regulated that work immediately prior to the promulgation of these by-laws.
- (2) Any reference in these by-laws to a charge prescribed by the municipal council shall be deemed to be a reference to a charge prescribed by the municipal council under the by-laws repealed by these by-laws, until the effective date of any applicable charges that may be prescribed by the municipal council in terms of these by-laws, or the by-laws relating to credit control and debt collection, and any reference to a provision in the by-laws repealed by these by-laws shall be deemed to be a reference to a corresponding provision in these by-laws.
- (3) Any approval, consent or exemption granted under the by-laws repealed by these by-laws shall, save for the provisions of sub-sections (2) and (4), remain valid.
- (4) No customer shall be required to comply with these by-laws by altering a water installation or part of it which was installed in conformity with any by-laws applicable immediately prior to the commencement of these by-laws; provided that if, in the opinion of the municipality, the installation, or part, is so defective

or In a condition or position that could cause waste or undue consumption of water, pollution of the water supply or a health hazard, the municipality may by notice require the customer to comply with the provisions of these by-laws.

91. Short Title and Commencement

- 1) These by-laws are called the Water Services By-laws of the Harry Gwala District Municipality.
- 2) The municipality may, by notice in the Provincial Gazette, determine that provisions of these by-laws, listed in the notice, do not apply in certain areas within its area of jurisdiction listed in the notice from a date specified in the notice.
- 3) Until any notice contemplated in sub-section (2) is issued, these by-laws are binding.

SCHEDULE A: LIMITS OF CONCENTRATION OF SUBSTANCES THAT MAY BE DISCHARGED TO THE MUNICIPALITY'S SANITATION SYSTEM

Parameter	Allowed Specification
PV-not exceed	1400 ml/l
Ph within range	6,0 -10,0
Electrical conductivity – not greater than	500 mS / M at 20 °C
Caustic alkalinity (expressed as CaCO ₃)	2 000 mg / l
Substance not in solution (including fat, oil, grease waxes and like substances)	2 000 mg / l
Substances soluble in petroleum ether	500 mg / l
Sulphides, hydrosulphides and polysulphides (expressed as S)	50 mg / l
Substances from which hydrogen cyanide can be liberated in the drainage installation, sewer or sewage treatment works (expressed as HCN)	20 mg / l
Formaldehyde (expressed as HCHO)	50 mg / l

Non – organic solids in suspension	100 mg / l
Chemical oxygen demand (CO)	5 000 mg / l
All sugars and / or starch (expressed as glucose)	1 500 mg / l
Available chlorine (expressed as glucose)	100 mg / l
Sulphates (expressed as SO ₄)	1 800 mg / l
Fluorine – containing compounds (expressed as F)	5 mg / l
Anionic surface-active agents	500 mg / l

METALS:**Group 1:**

Metal	Expressed as
Manganese	Mn
Chromium	Cr
Copper	Cu
Nickel	Ni
Zinc	Zn
Iron	Fe
Silver	Ag
Cobalt	Co
Tungsten	W
Titanium	Ti
Cadmium	Cd

The total collective concentration of all metals in Group 1 (expressed as indicated above) in any sample of the effluent, shall not exceed 50 mg / l, nor shall the concentration of any individual metal in a sample exceed 20 mg / l.

Group 2:

Metal	Expressed as
Lead	Pb
Selenium	Se

Mercury	Hg
---------	----

The total collective concentration of all metals In Group 2 (expressed as indicated above) in any sample of the effluent shall not exceed 10 mg / l, nor shall the concentration of any Individual metal in any sample exceed 5 mg / l.

OTHER ELEMENTS

Element	Expressed as
Arsenic	As
Boron	B

The total collective concentration of all elements (expressed as indicated above) in any sample of the effluent shall not exceed 20 mg / l.

RADIO-ACTIVE WASTES

Radio-active wastes or Isotopes: Such concentration as may be laid down by the Atomic Energy Board or any National Department:

Provided that, notwithstanding the requirements set out in this Part, the municipality reserves the right to limit the total mass of any substance or impurity discharged per 24 hours into the sanitation system from any premises.

METHOD OF TESTING

The method of testing in order to ascertain the concentration of any substance in this Schedule, shall be the test normally used by the municipality for these purposes, any person discharging any substance referred to in this Schedule shall ascertain the details of the appropriate test from the municipality.

SCHEDULE B: APPLICATION FORM FOR THE DISCHARGE OF INDUSTRIAL EFFLUENT TO THE MUNICIPALITY'S SANITATION SYSTEM

(Please complete application in block capitals)

I (name): _____
the undersigned, duly authorised to set on behalf of

and hereinafter referred to as the applicant, hereby apply in terms of the Water Services By-laws of the municipality for approval to discharge industrial effluent into the municipality's sanitation system in accordance with the information provided herein.

PART I

1, NATURE OF THE BUSINESS OR INDUSTRY CONCERNED:

2. NAME OR STYLE UNDER WHICH THE BUSINESS OR INDUSTRY IS CONDUCTED:

3. POSTAL ADDRESS OF THE BUSINESS OR INDUSTRY:

4. PHYSICAL STREET ADDRESS:

ERF NO OR FARM PTN: _____ TOWNSHIP OR FARM: _____

5. If the business or industry is conducted by a company or closed corporation, state the name of the secretary, and if it is a partnership state the names of the partners:

6. THIS IS A NEW OR ESTABLISHED BUSINESS:

7. DESCRIPTION OF INDUSTRIAL OR TRADE PROCESS BY WHICH THE EFFLUENT WILL BE PRODUCED.

8. INFORMATION RELATING TO EMPLOYEES:

	Office	Factory
(1) Total number of dally employees not included in 4		
(2) Number of shifts worked per day:		
3 Number of da s worked er week:		
(4) Number of persons resident on the premises:		
5 Is a canteen provided?		

PART II

INFORMATION RELATING TO THE CONSUMPTION OF WATER

1. TOTAL NUMBER OF LITRES OF WATER CONSUMED IN SIX MONTHS:

	Meter No	Meter No	Meter No	Total
Water purchased from the municipality				
Water from borehole or other source				
Water entering with raw materials				
Section of plant served by meter				

Total A				
---------	--	--	--	--

2. WATER CONSUMPTION

(1) Industrial	kl/Month
(I) Quantity of water in product
(ii) Quantity of water lost by evaporation
(lii) Quantity of water used as boiler make-up
(iv) Quantity of water for other uses (e.g. cooling, gardens, etc)	
TOTAL B	_____

(2) Domestic use	kl/Month
(ii) Total number of employees (Allow 1 kilolitre/person/month).....	
(i) Total number of employees permanently resident on the premises e.g. hostels (Allow 1 kilolitre/person/month) ...	
.....	
TOTAL C	_____

3. EFFLUENT DISCHARGE INTO SANITATION SYSTEM

(1) Metered volume (if known)kl/
Month.	
(2) Estimated un-metered volume (see below*)kl/
(3) Estimated rate of discharge	
.....	
(4) Period of maximum discharge (e.g. 07:00 to 08:00)
.....	

* In the event that no effluent meter is installed on the premises, the estimated volume of un-metered effluent discharge to sewer is calculated as follows:

$$A - (B + C) = \dots\dots\dots \text{KI /Month}$$

PART III

INFORMATION REGARDING THE COMPOSITION OF INDUSTRIAL EFFLUENT

Information relating to the chemical and physical characteristics of the effluent to be discharged:

- (1) Maximum temperature of effluent °C
- (2) pH value
- (3) Nature and amount of settleable solids
- (4) Organic Content (Expressed as Chemical Oxygen Demand)
- (5) Maximum total daily discharge (kilolitres)
- (6) Maximum rate of discharge (kilolitres / hr)
- (7) Periods of maximum discharge, (e.g. 7:00 am to 8:00 am)
- (8) If any of the substances or their salts, specified in the table, are formed on the premises, a cross must be placed in the space in which the substance appears, and, if possible, the average concentration of this substance likely to be present in any effluent must also be stated.

TABLE

ELEMENTS	COMPOUNDS	OTHER SUBSTANCES
Arsenic mg/l	Ammonium mg/l	Grease and / or oil mg/l
Boron mg/l	Nitrate mg/l	Starch and / or sugars mg/l

Cadmium mg/l	Sul hide m /l	Synthetic detergents mg/
Chromium mg/l	Sul hate m ll'	Tar and / or tar oils mg/l
Cobalt mg/l	Other (Specify) mg/l	Volatile Solvents mg/l
Copper mg/l	Others (Specify) mg/l	
Iron mg/l		
Lead mg/		
Manganese mg/l		
Mercury mg/		
Nickel mg/l		
Selenium mg/l		
Tungsten mg/l		
Titanium mg/l		
Zinc mg/l		
Other (Specify) mg/l		

(9) Any further Information as to kind or character, chemical compositions, concentrations or other properties peculiar to the industrial effluent to be furnished on a separate sheet and attached hereto.

PART IV**CONDITIONS RELATING TO THE ACCEPTANCE OF INDUSTRIAL EFFLUENT**

1. The applicant shall attach descriptions and a statement of the dimensions of grease and oil traps, screens, dilution and neutralising tanks and any other provision made for the treatment of the effluent prior to discharge to the sanitation system.
2. The applicant shall submit to the municipality, if requested, plans showing the reticulation systems on his premises for water and industrial effluent,
3. The applicant shall, in addition to complying with the provisions of the municipality's Water Services By-laws aimed at the protection of its employees, sewers and treatment plant from damage, comply with any direction concerned with such protection given by the municipality verbally or in writing for the purpose of ensuring the applicant's compliance with the said by-laws.
4. The applicant shall notify the municipality, as soon as possible after he becomes aware thereof, or at least 14 days before anything is done to cause material alteration in the nature or quantity of the industrial effluent specified in this application or in any of the facts stated by him therein.
5. The applicant shall, within 30 days from the date of signature of this application, procure an accurately representative sample of not less than 5 litre of the industrial effluent to be discharged into the sewer, which sample shall be free of domestic sewage, and shall submit one half thereof to the municipality for analysis and also submit to the municipality a report on the sample made by an analyst appointed by him: Provided that in the case of a newly established Industry the period specified may be extended by the municipality for a period not exceeding six months or such further extended periods as the municipality in its discretion may approve.
6. The applicant hereby declares and warrants that the information given by him in this form, or otherwise, in connection with this application is to the best of his knowledge and belief, in all respects correct.
7. The applicant agrees that the said information, being in all respects correct, shall form the basis on which this application is granted by the municipality.

Thus, done at Ixopo by the applicant thisday of2024.

Signature and capacity of the applicant

SCHEDULE C: FORMULA FOR THE CALCULATION OF EFFLUENT DISCHARGE CHARGES

1. The additional charge for industrial effluent for the disposal of high strength sewage to a wastewater treatment plant shall be determined in accordance with the following formula:

2.
$$T_c = Q_d \left[a \left(\frac{COD_c - COD_d}{COD_d} \right) + b \left(\frac{P_c - P_d}{P_d} \right) + c \left(\frac{N_c - N_d}{N_d} \right) \right]$$

Where Tc = Extraordinary' Treatment Cost to Customer QC wastewater

Volume discharged by customer in kl t = Unit Treatment cost of wastewater in R/kl

CODd = Total COD of wastewater discharged by customer in milligrams/litre and is Inclusive of both the biodegradable and nonbiodegradable portion of the COD

CODd = Total COD of domestic wastewater in milligrams per litre

Pc = Ortho-phosphate concentration of wastewater discharged by customer in milligrams phosphorus per litre

Pd = Ortho-phosphate concentration of domestic wastewater in milligrams phosphorus per litre

Nc = Ammonia concentration of wastewater discharged by customer in milligrams of nitrogen per litre

Nd = Ammonia concentration of domestic wastewater in milligrams of nitrogen per litre

a = Portion of the costs directly related to COD

b = Portion of the costs directly related to the removal of phosphates

c = Portion of the costs directly related to the removal of nitrates

Different terms	Value
T	R0,82/kl
CODd	600 mg/l
Pd	10 mg/l
